Voted, That when the vote is taken on the foregoing vote, it be by the voting list, by a yea and nay vote.

After some discussion on the foregoing vote, and the offering of several substitutes, which were all lost or withdrawn, the question was taken by calling the list of the names of voters, the Moderator stating to the meeting, before the calling of the names, that all in favor of the foregoing vote would answer "yes;" those opposed, "no."

Mr. Charles D. Head, chairman of the Board of Selectmen, then called the names on the list of voters, resulting as follows; to wit, —

Yeas, two hundred and forty-three.
Nays, eighty-two.

The Moderator then declared the vote carried in the affirmative.

Voted, That the sum of seven thousand dollars be appropriated to finish and furnish the new engine, hook-and-ladder house.

Sixth Article taken up:

To hear and act upon the report of the committee for purchasing land for a cemetery.

Hon. William Aspinwall presented the following report for the committee: —

In Town Meeting,
Brookline, January 23, 1872.

The committee appointed at the town meeting holden on the second day of May, 1871, to consider the subject of procuring land for a cemetery, respectfully submit the following

Report.

They caused a notice to be posted in several public places, and to be advertised in the "Brookline Transcript," requesting persons who had lands suitable for a cemetery to send in proposals to the committee. In answer to this notice, the committee received proposals from only two persons, — Messrs. Willard A. Humphrey and Abijah W. Goddard.

Mr. Humphrey offered ninety (90) acres of land on Grove street at six hundred dollars per acre, provided the whole quantity were taken, but at a higher cost if less than the whole were bought. This land lies partly in Brookline and partly in West Roxbury. About sixty acres lie in Brookline.

Mr. Goddard offered the whole or a part of his farm on Goddard avenue, containing, it is supposed, about sixty-five acres, but he made no price.

The committee are not prepared to advise the town to purchase either of these tracts for a cemetery without further effort to find a more central site for the purpose.

They therefore report progress, and ask leave to continue their search for a proper place for a Brookline cemetery.

William Aspinwall,
Samuel Clark,
Edward I. Thomas,
Committee.

Voted, To accept the foregoing report.

Voted, That the committee have leave to continue their search for a proper place.

Seventh Article taken up:

To hear and act upon the report of the committee for procuring land for playgrounds or commons.

Mr. Edward I. Thomas, for the committee, reported verbally that, as no other desirable lots were offered, there did not seem to be any further need of their services, and requested that the committee might be discharged.

Voted, To grant the request of the committee, and that they be discharged.

Voted, That the subject of the right of the town to purchase playgrounds or commons be referred to the Selectmen, and if, after consulting counsel, they find that the town has no right to so purchase, they are authorized to apply to the Legislature for an act to confirm the act of the town in purchasing such lands.

Eighth Article taken up:

To hear and act upon the report of the committee for supplying the town with pure water.

Mr. Edward S. Philbrick, for the committee, made the following report: —

BROOKLINE, January 23, 1872.

The committee appointed May 2, 1871, to consider the subject of supplying the town with pure water would now

REPORT.

Three general plans were at first considered by the committee; viz., —

1st. A supply of water by negotiation with the city of Boston.

2d. A supply by erecting works in connection with West Roxbury.

3d. A supply by the construction of independent works on the part of Brookline.

1st. On conferring with the Water Board of Boston, no encouragement was met with as to obtaining water through negotiation with them. In fact, they appear to have no water to spare at present, and have little disposition to assist us in obtaining it. This plan was therefore abandoned.

2d. The citizens of West Roxbury had already examined the subject with some thoroughness, through their own committee, whose report was printed and circulated in our town as well as their own. Their engineer, Mr. Edward Sawyer, recommended Charles river as the most feasible

and adequate source within their reach; but that was found to be claimed by the city of Boston, through a previous charter granted to the city of Roxbury; so that nothing could be done in that direction without further negotiation and legislation, involving considerable delay and uncertainty.

3d. Your committee therefore turned their attention to such sources as appeared within the reach of their own independent action.

First and foremost among such sources was found a collection of springs on the lands of the Brookline Land Company, a short distance above the Ward schoolhouse.

An investigation was made during the month of July last, as to the quantity of water actually yielded by these springs, and their flow has been carefully gauged at frequent intervals up to this time.

During July and August the flow was found to be from 320,000 to 385,000 gallons per day. During the month of September it reached a minimum of 280,000 gallons, since which time it has steadily increased to about 400,000 gallons at the present time.

The season was one of remarkable drought, following a whole year of comparative drought, and the flow was nevertheless found to be remarkably uniform and but little affected by slight rains.

The quality of the water, though not subjected by us to any chemical tests, is quite soft, and, like all pure spring waters, is sparkling and refreshing to the taste. Its origin seems to be through the gravel beds of the surrounding slopes, gathered from the rainfall of the basin or valley for about one and a half square miles.

The minimum flow of 280,000 gallons per day, unaided by any storage of winter surplus, is an ample supply for the domestic wants of some ten thousand people, while the slope of the ground in the valley is such that storage can be obtained sufficient to afford a constant flow of at least 350,000 gallons per day should it be found advisable at any future time.

The Brookline Land Company offer, through a corporation organized for the purpose (Acts of 1861, Chap. 205, and Acts of 1862, Chap. 211), the franchise of said corporation, and the lands controlling the springs, about nine acres, for a sum of $50,000, if the town will proceed at once to develop the supply of water.

This source within our limits, close to the densest part of our population, seemed to be peculiarly adapted to our present wants, and an estimate was obtained from reliable parties, the Boston Machine Company, to cover the cost of erecting pumping machinery, and of distributing this water over the eastern part of the town, through nine miles of iron pipes in our streets, with a head of two hundred feet above tide, or seventy-five feet above the Cochituate reservoirs.

The size of pipes and style of gates, stop-cocks, hydrants, &c., were to be similar to those used in Boston. A small reservoir was contemplated of sufficient size to avoid pumping during the nights, and a small pond at the springs for the same purpose.

This estimate also contemplated sufficient power to supply four hydrants at once, with a pressure to throw streams one hundred feet above the streets through Longwood and similar levels.

We give below a summary of the estimate, which we have reason to believe is a very ample one for the purposes named:

Estimate of cost.

For two engines, boilers and pumps, with the necessary buildings and small reservoir	$21,000
For 47,000 feet of iron pipes laid in the streets, from 6 to 12 inches in diameter	82,968
For 75 hydrants at $40	3,000
For 40 gates, average at $100	4,000
Total for machinery and pipes	$110,968
Add cost of land and franchise	50,000
Add cost of preparing springs	5,000
Total outlay	$165,968

A saving of some $10,000 could be made if the extra power for fire service be omitted, instead of which reservoirs could be kept in the streets as at present, to supplement the more moderate flow in the pipes, which could then be limited to the amount of water required for domestic wants, with a limited head at the hydrants.

Moreover, as the whole nine miles of street pipes would not be probably required for two years or more, the expenditure for that item need not all be made at once, nor all the power furnished during the first year. One engine and boiler would be ample for the first, if not for the second year, and until the consumers call for the greater part of the whole supply of water.

Your committee are well aware that a supply of water for but ten thousand people would hardly be adequate for the town of Brookline for a long period; but in recommending the improvement of this source for the period during which it might serve, we beg leave to call attention to the following facts; viz., —

Whenever the population demands a greater volume of water than can be obtained here, they will find a system of distributing pipes in the streets ready for use, perfectly available for connection with the Cochituate mains, or any other probable source, so that this item of pipes, by far the largest item in our proposed outlay, is not to be sacrificed at all by a change of supply. The item of land would also remain of a very considerable value, probably a good deal more than twelve cents per foot, which we should now pay for it, and the only item suffering any great depreciation would be the pumping apparatus, costing but $21,000 now, while the same pumps and engines would doubtless be needed then and always for raising the water to the higher portions of the town, where the Cochituate head, though available for lower levels, would never serve us unaided.

All things considered, then, your committee are unanimous in recommending immediate action to improve this source of supply, believing that the town will be amply repaid for the outlay, partly by the water rates themselves, partly by the more rapid growth and prosperity always found to follow the introduction of pure water into our houses. If such

action be taken, the whole work could be done during the coming year, and we might see the water running next autumn.

The committee recommend that the subject be recommitted, with instructions to report in print at a future meeting, and in the mean time to mature such further action as it may seem advisable for the town to take under existing statutes.

All of which is respectfully submitted by your obedient servants,

AMOS A. LAWRENCE,
CHARLES D. HEAD,
EDWARD S. PHILBRICK,
WILLIAM ASPINWALL.

Mr. John W. Candler declines to sign, although approving of this report, on the grounds that he is interested in the lands hereby recommended to be purchased.

Voted, To accept the foregoing report.

Voted, To refer the subject back to the committee, with power to confer with the proprietors of the Jamaica Pond Aqueduct Company, and report in print at a future meeting, with all the facts.

Voted, That the Selectmen be requested to see if some means cannot be found to prevent, by injunction or otherwise, the making of roads across railroads at grade.

Ninth Article taken up:

To raise and appropriate such sums of money as may be necessary to defray the expenses of any or all the foregoing articles.

The meeting then voted to raise and appropriate the following sums; to wit, —

For purchasing new hook-and-ladder truck	$1,200
For contingencies, additional	5,000
For finishing and furnishing new engine house	7,000
Total	$13,200

Voted, That the Town Treasurer be authorized to borrow the amount appropriated at this meeting, giving the note or notes of the town therefor, countersigned by the Selectmen, in such sums and at such times as may be called for by said Selectmen.

Adjourned.

Attest: B. F. BAKER,
Town Clerk.

ADJOURNED ANNUAL MEETING, MARCH 26, 1872.

Pursuant to adjournment, the inhabitants of the town of Brookline met at the Town Hall in said town, on Tuesday, the twenty-sixth day of March A.D. 1872, and were called to order at four of the clock in the afternoon, the Moderator, Charles H. Drew, in the chair.

Third Article taken up:

To hear and act upon the reports of town officers and committees.

Mr. Edward S. Philbrick presented the following reports of town officers, which had been printed and distributed through the town, and which were read by their titles and accepted; to wit, —

Treasurer's report of the receipts and expenditures of the town of Brookline; also report of the Selectmen and reports of the Trustees of the Public Library and of the School Committee; with a list of the taxes and the names of the tax-payers for the year ending February 1, 1872.

The Selectmen also presented the following additional report; to wit, —

IN TOWN MEETING,
BROOKLINE, March 26, 1872.

The Selectmen of Brookline respectfully submit the following additional report: —

We have received from the County Commissioners notice of the petition to that board of Amos A. Lawrence and forty-two others for a new road from the bridge across Charles river at Abbott's wharf to Western avenue in Boston across the Brookline Branch Railroad. The hearing upon this petition will be on Tuesday, April 2, 1872. We have also received from the Joint Standing Committee on Railways and Canals notice of the petition of the trustees of the Boston, Hartford & Erie Railroad for authority to build a railroad through Brookline from the Reservoir station on Brighton street, to a point near the Cottage Farm station, with the purpose of making an independent line into Boston. We appeared at two hearings on this petition, and asked the committee that the railroad projected be allowed to cross no highways in Brookline at grade.

In view of the intention expressed by the town of supplying itself with water, we felt it our duty to have a bill introduced into the Legislature to enable the town to take water from Charles river. Several hearings have been had upon the matter, and the Committee has not yet reported.

As the city is applying to the Legislature for permission to take the waters of Charles river and of Sudbury river for the use of that city, we deemed it a proper occasion for urging the claims of the town of Brookline to obtain a part of this new water supply upon reasonable terms, as a slight compensation for the loss and annoyance to the public and to the private citizens of Brookline during the last twenty-five years by reason of the laying of the water pipes in the streets, and the holding of large tracts of valuable land free from taxes for the benefit solely of the city of Boston.

We recommend the town to authorize the Selectmen in conjunction with the Committee on the Water Supply to urge both the foregoing propositions before the Legislature, with power to employ counsel if they deem it expedient.

We noticed in the newspapers a notice of a hearing before the Committee on Harbors, introduced into the Senate, to consider the expediency of making a reservoir or tidal basin in the Back bay, south of the Boston & Albany Railroad and west of the cross dam, to aid in the protection of the harbor of Boston, and as a protection against fire, and for sanitary purposes.

As this question involves the rights of drainage which this town has through the territory designated, we felt it our duty to appear before the

committee and request a hearing before any bill should be reported. This hearing is to take place on Friday the 29th instant.

We recommend to give the Selectmen express instructions in the premises.

CHARLES H. DREW.
HORACE JAMES.
WILLIAM ASPINWALL.
CHARLES K. KIRBY.

Voted, To accept the foregoing report.

Voted, That the Selectmen be instructed to appear before the County Commissioners at the hearing for a new highway from the bridge across the Charles river to Western avenue in Boston, and look after the interests of the town.

Voted, That the Selectmen be instructed to appear at all hearings before the Joint Standing Committee on Railroads and Canals upon any petition for a railroad through Brookline, and oppose any crossing by a railroad of any highway or town way in Brookline at grade.

Voted, That the Selectmen be instructed to appear before the Committee on Harbors upon the subject of a tidal basin in the Back Bay, and defend the interests of the town.

Mr. Charles D. Head presented the following report of the Committee on the Condition of Muddy River; to wit, —

The committee appointed at a town meeting held on the 18th of September, 1871, to whom was referred Article Seventh of the warrant for said meeting, with directions to report "what action if any shall be taken in regard to the correction of the existing nuisance arising from the offensive and unwholesome condition of Muddy river," now submit their report in part as follows: —

Upon inquiry and personal examination they are satisfied that the difficulty arises mainly from the setting back, by the tides, of water loaded with impurities of the Back Bay, which upon the receding of the tide are left upon the margin and shallow bottom of the channel of Muddy river. In the opinion of the Committee, the most obvious and immediate action practicable would be to exclude this impure flow of water from the channel.

In a conference with Mr. Bradley, employed for the city of Boston upon sewers and drains, as engineer, we were assured that a suitable and effective dam, with tide gate, to answer the purposes sought, could be erected on Western avenue in Boston, within the limits of the street, at a cost of twenty-five hundred dollars. He made this estimate at our request, upon an examination of the premises, and submitted to us a diagram of the proposed structure, which meets our approval.

By this means the foul water from the southerly part of the Back Bay would be kept out, and the water of Muddy river drawn off at low tide, or kept up at such height as should be deemed most favorable for the drainage of the town and for protection against offensive deposits.

To accomplish this will, of course, require that the consent of the city of Boston be obtained. As we can neither see nor conceive of any disadvantage to the city or to individual proprietors from such a structure, and as it will, if successful, be equally beneficial to citizens of Boston upon the south side of Muddy river as to those of Brookline upon the north, we feel confident that we may expect at least a ready consent, if not concurrence and contribution to the expense, from the city. We have not deemed it proper to make formal application to the city government in relation to the matter until we ourselves should be clothed with proper authority to act decisively therein.

We recommend that the Selectmen or some other board or committee be authorized, either in conjunction with the city of Boston or separately, in behalf of the town of Brookline, with the consent of the city government of Boston, to provide for the construction of a dam and tide gate at Western avenue, sufficient to exclude the flow of the tide from the Back Bay into Muddy river, and that the sum of three thousand dollars be appropriated for that purpose.

The committee do not consider that this expedient, if adopted, will answer all the purposes of permanent relief and protection; sooner or later some more direct discharge of the sewage of the town will be necessary. The committee look to the line of St. Mary's street as the only possible one for the purpose, but the recent annexation of marsh land to Boston embraced the whole of that street, and deprived the town of Brookline of the means of reaching Charles river by the only practicable line.

To remedy this difficulty, application has been made to the Legislature for another change of boundary, so as to restore that street to the town of Brookline. The result is not yet determined.

With a larger sewer through that street to Charles river, and the exclusion of the offensive flow from the Back Bay, the committee are of the opinion that the drainage of the town can be made satisfactory, either by a complete system of covered sewers, or by admitting into the open channel of Muddy river the purer water of Charles river, instead of that which now brings to us the offensiveness of city drains.

We have not overlooked the fact that Muddy river is common to both Brookline and Boston, and that there is drainage upon the Boston side to be considered. We cannot doubt that in such a matter of common interests, some mode of providing for the common welfare, by joint measures, may be arranged. But, if not, it is the right and duty of our citizens to take such measures, within the limits of their own town, as they find to be practically to assuage, if they cannot wholly remove, the measureless evils of deficient drainage.

We therefore recommend the further prosecution of the matter in such mode as the town may deem most efficient to secure the end desired.

All of which is respectfully submitted.

Brookline, March 25, 1872.

Voted, To accept the foregoing report.

Voted, That the Selectmen be authorized, either in conjunction with the city of Boston, or separately in behalf of the town of Brookline, with the consent of the city government of Boston, to provide for the construction of a dam and tide gate across Muddy river at Brookline avenue, sufficient to exclude the flow of the tide from Back Bay into Muddy river.

Voted, That the sum of three thousand dollars be raised and appropriated for that purpose.

Mr. Edward S. Philbrick presented the following report of the committee for supplying the town with pure water; to wit, —

REPORT.

The committee chosen at the town meeting May 2, 1871, "to consider the subject of supplying the town with pure water," would now report:

Since the last report, which was submitted to the town on the 23d January last, the city of Boston has withdrawn its application to the Legislature for power to take water from Charles river, and now confine their application to the Sudbury river, from which they now hope to obtain an ample supply at an early day.

In view of these facts, we would recommend that action be taken to obtain the legislation necessary for the purpose of enabling our town to get a supply of water, either through the city of Boston, which will probably soon have a surplus to dispose of, or in connection with one of the adjoining towns of West Roxbury or Newton, both of which towns are now about getting such legislation to provide for their own supply from Charles river.

Your committee still think favorably of the source before named, on the lands of the Brookline Land Company, provided that no more permanent supply can be got from either of the above sources; but before taking any definite action in that direction we would by all means, now that the way seems open, make further efforts to obtain a supply from some more permanent source.

We would therefore now offer for the consideration of the town the following votes; viz., —

Voted, That whereas for more than twenty-five years the city of Boston has occupied the territory and streets of Brookline with its water reservoir and water pipes, for the benefit solely of the citizens of Boston, and to the great loss and inconvenience of the inhabitants of Brookline; and whereas the city of Boston is applying to the General Court for, and probably will obtain, a new supply of water far beyond her actual wants: Now the Selectmen are hereby instructed, in conjunction with the Committee on Water Supply, to appear before the General Court, and respect-

fully urge the claim of the town of Brookline to be supplied by the city of Boston with a portion of their new supply of water on payment of a reasonable compensation therefor. And they are further instructed, in case they cannot obtain this supply from the city of Boston, to continue their application to the General Court for an act authorizing the town of Brookline to supply itself with water from Charles river.

All of which is respectfully submitted by your obedient servants,

CHARLES D. HEAD,
EDWARD S. PHILBRICK,
WM. ASPINWALL,
(Mr. JOHN W. CANDLER having resigned),
GEORGE F. HOMER,

Brookline, March 25, 1872. *Committee on Water Supply.*

Voted, To accept the foregoing report.

Hon. William Aspinwall presented the following report of the committee for procuring land for a cemetery; viz., —

IN TOWN MEETING,
BROOKLINE, March 25, 1872.

The committee appointed to consider the subject of procuring land for a cemetery respectfully submit the following

REPORT.

They recommend the town to buy the lot of land containing about twenty-one acres, situated at the junction of Warren and Clyde streets,

belonging to William H. Cowan. They have reason to believe that the land can be bought for about five cents per foot.

If the town should purchase this lot, the committee would suggest that the front part of the land could be used as a common or playground, while the land in the rear could be devoted to cemetery purposes.

If the town should decide to buy any land for a new cemetery, the committee recommend the election by the town of a board of six persons to lay out and take charge of the cemetery grounds, two to be elected for one year, two for two years, and two for three years, and after the first election, two to be elected annually to hold office for three years.

WILLIAM ASPINWALL.

Sixth Article laid on the table.

The committee to whom was referred the Eighth Article reported as follows; to wit, —

REPORT ON EIGHTH ARTICLE.

The committee to whom was referred the Eighth Article in the warrant, having considered the subject of creating a sinking fund to pay the town debt, submit the following report: —

It appears by the Treasurer's report that the total amount of the town debt on the 1st of February last was $473,000.

Of this sum there is due during the current year,	$19,000
In 1873	10,000
1874	10,000
1875	14,000
1876	15,000
1877	15,000
1878	16,000
1879	16,000
1880	16,000
1881	19,000
1882	29,000
1883	24,000
1884	30,000

Maturing within the next twelve years, $233,000.
Leaving the sum of $240,000.
Of which amount there is payable in the year

1886	$50,000
1891	100,000
1896	90,000

For the payments of the certificates of debt or bonds issued under votes of the town for the said sum of $240,000, the committee recommend a sinking fund, to be established by annual taxation, of a sum which, with the accumulation of interest, will be sufficient to pay said debt at maturity.

The committee find that if the first payment is made on the first day of July next and then interest at the rate of six per centum per annum, the amount should be $5830. Your committee, therefore, recommend that the sum of $5800 be raised by taxation the current year, and a like sum be raised by taxation annually and invested in a sinking fund, and that said sums so appropriated from year to year, together with the accumulated interest, should be pledged and held as the sinking fund thus to be established for the reduction of the town debt.

Your committee further recommend that should the debt of the town be increased by the issue of notes or bonds payable at any time beyond the next twelve years, that there be raised by taxation at the time of creating such additional debt, a sum by taxation annually, which with its accumulated interest will be sufficient to pay said debt at maturity.

It is also recommended that a board of commissioners be created, to be called "Commissioners of the Sinking Fund," and that the Chairman of the Board of Selectmen, the Chairman of the Board of Assessors, together with the Town Treasurer, constitute said Board of Commissioners.

All of which is respectfully submitted.

John C. Abbott,
W. A. Wellman,
Committee.

Voted, To accept the foregoing report.

Voted, To adopt the recommendations of the report.

After some discussion in relation to the Chairman of the Selectmen, the Chairman of the Assessors, and the Town Treasurer, constituting the Board of Commissioners to take charge of the sinking fund, it was

Voted, That Charles D. Head, William A. Wellman, John C. Abbott, be a Board of Commissioners to take charge of the sinking fund.

William A. Wellman presented the following report of the Committee on Building the new Town Hall: —

The Building Committee of the new Town Hall ask leave to report:

The building has been advanced to near completion on the exterior, the work to be done being painting and jobbing connected with the stone work, the fixing in position the iron crests on the roof, the completion of the iron cornices, and the finishing of the doors and windows.

The interior will be ready for plastering in about ten days, on the completion of which the woodwork, decorations, &c., will be pushed forward as rapidly as consistent with proper execution, with the expectation of completing the building as early as September next.

The amount of the mason's contract was		$78,356

On account of which has been paid to the		
mason	$76,500	
carpenter	19,000	
	$95,500	
In addition, the extra mason's work will be about		3,000

contingencies		2,000
		$150,010

The sum of $50,000, being additional to the $100,000 already raised by loan, the committee recommend should be raised in a similar manner.

As the Town Hall cannot be occupied until it is finished, the committee have thought it expedient to procure from the architects estimates for furnishing the two halls and the adjoining rooms and the offices for the various boards of town officers.

They recommend that the town appropriate $8500 for the furnishing of the halls and the adjoining rooms, to be expended under the direction of the Town Hall Committee.

They recommend the appropriation of $4500 for the furnishing of the offices for the occupation of the town officers, to be expended under the direction of the Selectmen. These sums, amounting to $13,000, they recommend should be raised by taxation the current year.

All of which is respectfully submitted.

For the Committee,
W. A. Wellman,
Chairman.

Brookline, April 10, 1872.

Voted, To accept the report.

Voted, That for the purpose of completing the new Town Hall and finishing the grounds about the same, the bonds of the town of Brookline be issued to the amount of fifty thousand dollars, to be called the Brookline Town Hall Fund, said bonds to be for amounts not less than five hundred dollars, payable to bearer or to order, at the office of the Treasurer in Brookline, in not less than five nor more than twenty years from the date thereof, with interest, payable semi-annually at some bank in Massachusetts, at a rate not exceeding six per centum per annum, with coupons for said interest attached; said bonds to be sealed with the seal of the town, to be signed by the Treasurer, and countersigned by a majority, at least, of the Selectmen, the coupons to be signed by the Treasurer alone.

1. Any of the persons described in the first section of the "Acts concerning Truant Children and Absentees from School," passed April 30, 1862, upon the conviction of any offence therein described, shall be pun-

It shall be the duty of every Truant Officer to inquire diligently concerning all persons between the ages aforesaid, who seem idle or vagrant, or who, whether employed or unemployed, appear to be growing up in ignorance, and to enter complaint against any one unlawfully absent from school or violating any of these by-laws.

7. It shall be the duty of every Truant Officer, prior to making any complaint before a justice, to notify the truant or absentee child, and its parents or guardian, of the penalty of the offence. If he can obtain satisfactory pledges of reformation, which pledges shall be subsequently kept, he shall forbear to prosecute.

Voted, To adopt the foregoing by-laws.

ADJOURNED ANNUAL MEETING, APRIL 14, 1873.

Pursuant to adjournment, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town, on Monday, the fourteenth day of April, 1873, and were called to order at four of the clock in the afternoon by the Moderator, Charles H. Drew.

The meeting then proceeded to choose the following officers to fill vacancies; to wit, —

Mr. R. G. F. Candage, who was chosen an Assessor at the meeting held on the thirty-first day of March last, having resigned the office, —

Voted, To proceed to fill the vacancy, and that the polls be kept open until five o'clock.

The polls were then declared open for the reception of votes for one Assessor for the ensuing year, and were kept open until five o'clock, when they were declared closed.

The Moderator and Town Clerk then proceeded to sort and count the votes given, and the whole number was two hundred and eighteen, as follows; to wit, —

N. C. Towle had sixty-four.

Thomas B. Hall had one hundred and fifty-four, and was declared elected. [Sworn by the Town Clerk.]

In voting, the check list was used, and no person was allowed to deposit his vote until his name was found on the list and checked.

Voted, That the three Field Drivers already qualified be the number for the year ensuing.

Willard Warren was chosen Sealer of Leather. [Sworn by the Town Clerk.]

The committee, consisting of the School Committee and the Board of Selectmen, to whom was referred the subject of the Sixth Article, in relation to the repairs and alterations of the Longwood and Harvard-street schoolhouses, reported that they had examined into the matter, and that in their opinion the Longwood schoolhouse should be moved on to a new site and receive a portion of the scholars from the

Harvard-street school, and the Harvard-street schoolhouse remain as it is at present.

Voted, To refer the whole subject back to the School Committee, to report at a future meeting.

The Selectmen, to whom was referred the subject of the Fifteenth Article, so far as it related to the altering of the old Town Hall, and providing therein for a police station, a room for the trial justice, and an evening school, reported as follows; to wit, —

Report of the Selectmen of the Town of Brookline on alterations of the old Town Hall for a Police Station.

BROOKLINE, Mass., April 14, 1873.

The Selectmen, who were instructed by the town to ascertain the expediency of making such alterations in the old Town Hall as would fit it for a police station, a court room for the trial justice, and providing accommodations for an evening school, would report that they have carefully attended to this duty, and find that suitable rooms for a police station, a commodious court room, four cells for persons detained by order of court or under arrest for alleged violation of law, and two rooms for lodgers, can be made on the lower floor of the old Town Hall building, at an estimated expense of thirty-five hundred dollars.

This will leave the large hall as it now is for the use of an evening school, or for any other purpose to which it may be thought proper to apply it, having, however, a separate and distinct entrance upon the eastern side or corner of the building.

They therefore recommend that they be authorized to make the alterations suggested in this report, and that an appropriation of thirty-five hundred dollars be made for this purpose.

Respectfully submitted by the Selectmen of Brookline by

CHARLES D. HEAD,
Chairman.

Voted, To accept the foregoing report.

Voted, That the sum of three thousand five hundred dollars be raised and appropriated for making the alterations recommended in the foregoing report.

The committee to whom was referred the matter of public conveyances between Brookline and the surrounding cities and towns asked for further time.

Voted, To grant the committee on public conveyances between Brookline and surrounding cities and towns further time.

The Committee on the Thirteenth Article, in relation to

increasing awards for damages after town ways have been laid out and accepted by the town, reported as follows; viz., —

BROOKLINE, April 14, 1873.

The committee appointed at the adjourned town meeting April 1, 1873, to consider the subject of the 13th Article in the warrant, and report at the adjourned meeting, the 13th Article being, "To see if the town will pass a vote giving the Selectmen power to increase awards for damages in laying out town ways after their acceptance by the town," respectfully submit the following

REPORT.

They find that, at the annual town meetings in 1871 and 1872, the town has passed the following vote: —

"*Voted*, That in case any party aggrieved in the assessment of damages caused by the laying out of any town way, if the party so aggrieved shall appeal to a jury, the Selectmen may hear such party, and increase said damages if they shall deem it for the interests of the town so to do:

"*Provided*, the party so aggrieved shall first agree to abide by the decision of the Selectmen."

So far the result appears to have been satisfactory, and the committee recommend that the town continue to confer the same power on the Selectmen annually, so long as its results as being effective in the economical settlement of claims against the town justify this course; but they are of opinion that it would be premature to put the vote in the form of a by-law until further trial has confirmed its permanent expediency.

Respectfully submitted.

H. STOCKTON,
GEO. M. TOWLE,
MOSES WILLIAMS, Jr.,
Committee.

Voted, To accept the report of the committee.

Voted, That in case any party aggrieved in the assessment of damages caused by the laying out of any town way, if the party so aggrieved shall appeal to a jury, the Selectmen may hear such parties, and increase said damages if they shall deem it for the interest of the town so to do, provided the party so aggrieved shall first agree to abide by the decision of the Selectmen.

The committee to whom was referred the subject of the Eleventh Article, in relation to rules or by-laws for the conduct of town meetings, asked further time.

Voted, To grant further time to the Committee on the Eleventh Article.

Voted, That the Selectmen be requested to appoint certain hours in which the Town Treasurer and the Town Clerk can be daily found in their offices for the purpose of attending to the business of the town.

Voted, To take up the Sixteenth Article, relating to appropriations.

Voted, That the sum of six thousand dollars be added to the appropriation for streets, and that the attention of the Selectmen and Town Engineer be called to the part of Boylston street west of the summit of Bradley's Hill, and its need of reconstruction.

Voted, That the sum of three thousand five hundred dollars be added to the appropriation for the Fire Department.

Voted, That the sum of two thousand five hundred dollars be raised and appropriated for the care and expenses of the new Town Hall.

Voted, That the Treasurer be authorized to borrow for the town, in anticipation of the receipt of taxes, such sums and at such times as the Selectmen may direct, to meet appropriations for current town expenses.

Voted, That when the town has voted, or shall hereafter vote, to borrow money for town purposes, the securities to be given therefor shall be issued in the name of the town, shall be signed by the Treasurer and countersigned by a majority at least of the Selectmen, and sealed with the seal of the town; but when coupon bonds are issued the coupons shall be signed by the Treasurer alone, and the Treasurer is authorized to negotiate the same upon such terms and conditions as may be approved in writing by a majority at least of the Selectmen at a meeting of the board, which approval shall be entered in the records of the board, and the amounts and purposes of such loans shall be entered in the order of their date, in a book to be kept for that purpose, under the direction of the Selectmen, and when such loans shall be paid off, such payment shall be entered in the same book.

Voted, That the various appropriations made by the town, including those for the purpose of making and repairing highways and town ways, be assessed, after deducting the amount

in the treasury and the probable receipts for the coming year, amounting to the sum of forty thousand dollars, upon the polls and estates, real and personal, of the inhabitants resident and non-resident of the town, and collected as the town rates are usually charged and collected.

Voted, That the report on the rules, regulations, and ordinances for the government of the Water Commissioners, which was presented by the committee appointed for that purpose, and read and accepted at the meeting held on the thirty-first day of March, 1873, be now taken up.

Voted, That the report be considered section by section.

The first section of the report was then read by the Moderator.

A motion to strike out the first section was lost by a vote of ninety-nine in the affirmative to one hundred and sixteen in the negative.

Moved by Mr. Carnes, that the vote to take up article by article be reconsidered, and the report be taken up in full.

The time having arrived (seven o'clock) set by vote of the meeting held on the first instant, the Moderator announced the business before the meeting to be to vote by ballot "yes" or "no" on the following motion: —

Voted, That there be appropriated four hundred thousand dollars to supply the town with water, under the Act entitled "An Act to authorize the town of Brookline to take water from Charles river," to be raised in accordance with the votes of the town.

The polls were then opened, and were kept open until nine o'clock for the reception of votes, when, by vote of the meeting, they were kept open until ten minutes past nine o'clock, when, after due notice by the Moderator that the polls were about to be closed, and an opportunity being given to any one present who had not voted, so to do, they were declared closed.

The Moderator and Town Clerk then proceeded to sort and count the votes so given in, and the whole number so given in was seven hundred and sixty-four as follows; to wit, —

"Yeas," three hundred and forty-three.

"Noes," four hundred and twenty-one.

The Moderator then declared the measure decided in the negative.

In voting, the check list was used, and no person was allowed to vote until his name was found on the list and checked.

The motion to reconsider the vote to take up the report section by section and consider it in full was then taken up.

Voted, To reconsider the vote to take up the report of the Committee on Rules, Regulations, and Ordinances section by section, and that the report be considered in full.

A motion to indefinitely postpone the report was lost by a vote of one hundred and sixty-one in the affirmative to one hundred and sixty-seven in the negative.

Voted, unanimously, That the thanks of the meeting be tendered to Charles H. Drew, Esq., the Moderator, for the able and judicious manner in which he has presided over its proceedings.

Adjourned.

Seventh. To see what action the town will take in reference to purchasing land on which to erect a stable.

Eighth. To raise and appropriate money to defray the expense of any or all the foregoing articles.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Selectmen, four days at least before the day of said meeting.

Given under our hands and seals at Brookline aforesaid, this twenty-first day of April in the year of our Lord one thousand eight hundred and seventy-three.

CHARLES D. HEAD,
CHARLES K. KIRBY,
HORACE JAMES,
JAMES W. EDGERLY,
DANIEL D. BRODHEAD,
Selectmen of the Town of Brookline.

NORFOLK, SS. BROOKLINE, April 26, 1873.

In pursuance of the within warrant, I have notified and warned the inhabitants of the town of Brookline to meet at the time and place and for the purposes within named, by leaving a printed copy of the same at their usual place of abode four days at least before the day of said meeting.

J. P. SANBORN,
Constable.

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town, on Thursday, the first day of May in the year of our Lord one thousand eight hundred and seventy-three, and were called to order at four of the clock in the afternoon by the Town Clerk, who proceeded to read

the warrant calling said meeting, and the return of the officer thereon who notified the same, and presided during the choice of a Moderator.

The First Article taken:

To choose a Moderator.

Voted, To choose a Moderator by nomination.

The meeting then nominated and chose for Moderator, Charles H. Drew, and he took the chair.

The Second Article taken up:

To hear and act upon the reports of any town officers or committees ready to report.

The School Committee presented the following report: —

BROOKLINE, May 1, 1873.

The School Committee, to which was referred the matter of the removal of the Longwood school from its old to a new site, etc., beg leave to present to the town the following

REPORT.

The above committee have investigated the following particulars; viz., —

1. What portion of the present site of the Longwood school has the town the authority to sell?

2. Will the removal of said school invalidate the title to the remaining portion of the lot, and will the fact of the disuse of the schoolhouse on that lot forfeit the town's title to a portion of the land?

3. What will it cost to remove the present school building to the location recommended by the joint committee from the Board of Selectmen and School Committee?

4. What will it cost to build a portion (wing or main building) of a new schoolhouse on the new site, for the purpose of relieving the crowded condition of the Harvard school?

5. What sum will be needed to purchase land near the location recommended?

And with the following result; viz., —

1. The town has the power of selling only one third of the Longwood-school lot (say about 9000 feet at 50 cents, $4500, more or less).

2. The removal or disuse of the schoolhouse will, in the opinion of the committee, invalidate the title to the remaining portion of the land. In this connection it may be stated that the town has actually paid only $380.60 for the remaining two thirds, over which the town has no power of sale or rights other than for a public school, whilst it has paid $901.90 for the land, over which it has the power of sale.

3. As near as can be ascertained, it will cost about $3000 to remove the present Longwood-school building to the lot recommended by the joint committee.

4. It will, in the estimation of your School Committee, cost about fifteen thousand dollars to build a schoolhouse that will accommodate the present Longwood school, and that will relieve the Harvard and Pierce Primary schools of their surplus pupils.

5. According to the investigations of your committee, and as near as can be ascertained from the trustees, who have the power to sell a lot of land near the location recommended by the joint committee, it will cost the town about twenty thousand dollars ($20,000) to purchase a suitable lot.

The School Committee, for the above considerations, recommend to the town to pass the following votes.

R. G. F. Candage (Chairman),
Robert Amory,
Charles H. Drew,
J. Eliot Cabot,
Wm. W. Newton,
School Committee.

Voted, To accept the foregoing report.

After considerable discussion upon the subject, the meeting passed the following votes; to wit, —

Voted, That the School Committee be authorized to purchase a lot of land (not less than an acre) in the vicinity of Kent and Francis streets, and that ($20,000) twenty thousand dollars be appropriated for that purpose and expended under the direction of the Selectmen and School Committee.

Voted, That the School Committee be authorized to make contracts under sealed proposals, for the removal of the Longwood schoolhouse, if in the judgment of the School Committee it is fit to do so after the completion of the new schoolhouse now contemplated.

Voted, That the School Committee be instructed to purchase the lot of land near Kent and Francis streets, free from incumbrances or restrictions extending beyond the year 1880.

Voted, That the School Committee be requested to furnish plans and estimates for a schoolhouse, and report to the town.

On motion of Edward Atkinson, —

Resolved, That in the judgment of the town, it would be wise for the School Committee to consider the expediency of securing land for school purposes in the south and west parts of the town without further delay, or in such other places, whether north or east, as they find the need of new schools may soon come.

Mr. Charles D. Head, for the Selectmen, moved to reconsider the vote passed April 1, appropriating three hundred and fifty dollars for a fireman's parade, as in their opinion the taxing of that sum on the town is illegal.

Voted, That the vote passed April 1, 1873, appropriating three hundred and fifty dollars for a fireman's parade, be and hereby is reconsidered.

Third Article taken up:

To see if the town will order a further investigation to be made with a view of obtaining a supply of pure water for the use of the town, either by the appointment of a committee for that purpose, or by the selection of an engineer, or by both methods, upon the petition of Edward Atkinson and others.

Upon the foregoing Article, the meeting passed the following resolutions; to wit, —

Resolved, That a committee of seven be now appointed to consider the question of obtaining a supply of pure water for the use of the town; what measures, if any, need to be adopted to carry off the waste of such supply; the method and cost of the introduction and distribution, and the number of households that will take a share of such supply when obtained.

Resolved, That Messrs. James M. Codman, Augustine Shurtleff, Henry V. Poor, Charles H. Stearns, Franklin Darracott, John C. Abbott, and S. Dana Hayes constitute said committee, and that said committee have power to fill vacancies.

Resolved, That said committee be authorized to employ an engineer and such assistants as may be required for carrying out the purposes of the above votes, and that the sum of five thousand dollars be appropriated for the use of said committeee.

Resolved, That the Treasurer be authorized to borrow said sum, or so much of it as may be required by the committee, on one year's time.

Fourth Article taken up:

To see if the town will apply to the General Court for any further powers in relation to supplying the town with water.

Voted, That the committee chosen to consider the subject of a supply of pure water for the use of the town, be directed to apply to the General Court at its present session in behalf of the town, for any further powers which may be requisite for supplying the town with water from sources within its own limits.

Fifth Article taken up:

To see if the town will authorize the construction of three or more reservoirs, and make an appropriation therefor.

Voted, That the Selectmen be requested to have five reservoirs constructed in different parts of the town.

Voted, To raise and appropriate the sum of seven thousand five hundred dollars ($7500), or such part thereof as may be required to make said reservoirs.

Sixth Article taken up:

To see if the town will authorize the Selectmen to make any different arrangements about the expense of making and grading sidewalks.

Voted, That it is inexpedient in future for the Selectmen to assess any part of the expense of making and grading sidewalks upon the abutters, except in cases where the abutters are more interested than the public in having a sidewalk.

Seventh Article taken up:

To see what action the town will take in reference to purchasing land on which to erect a stable.

Voted, That the Selectmen be authorized to purchase lands for a stable and yard for the accommodation of the Highway Department.

Voted, That the sum of ten thousand dollars be raised and appropriated for that purpose.

Eighth Article taken up:

To raise and appropriate money to defray the expenses of any or all of the foregoing articles.

Voted, That the Treasurer of the town be authorized to borrow the amounts of money appropriated at this meeting, or such portion as may be required, giving the note or notes of the town therefor, countersigned by the Selectmen, in

such sums and at such times as may be required by said Selectmen.

Adjourned.

Attest: B. F. BAKER,
Town Clerk.

Given under our hands and seals at Brookline aforesaid, this seventeenth day of October in the year of our Lord one thousand eight hundred and seventy-three.

CHARLES D. HEAD,
CHARLES K. KIRBY,
HORACE JAMES,
JAMES W. EDGERLY,
DANIEL D. BRODHEAD,
Selectmen of the Town of Brookline.

NORFOLK, SS. BROOKLINE, October 22, 1873.

In pursuance of the within warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place and for the purposes within named, by leaving an attested copy of the same at their usual place of abode, four days at least before the day of said meeting.

J. P. SANBORN,
Constable of Brookline.

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town, on Tuesday, the twenty-eighth day of October in the year of our Lord one thousand eight hundred and seventy-three, and were called to order at three of the clock in the afternoon by the Town Clerk, who proceeded to read the warrant calling said meeting, and the return thereon of the officer who served the notices.

The Town Clerk then presided during the choice of a Moderator.

First Article taken up:

To choose a Moderator.

The meeting then voted to choose a Moderator by ballot.

The Town Clerk then declared the polls open for the reception of votes for Moderator, and after keeping them open twenty-five minutes, and after having given to any one who was entitled to vote an opportunity so to do if he wished, they were declared closed.

The whole number of votes given in was sixty-three; to wit, —

For Moderator, Charles H. Drew, sixty-three, and he took the chair.

In voting for Moderator, the check list was used, and no person was allowed to deposit his vote until his name was found on the list and checked.

Second Article taken up:

To see if the town will make additional appropriations for highways, sidewalks, and street lamps.

Mr. Charles D. Head, chairman of the Board of Selectmen, presented the following report; viz., —

REPORT.

The appropriation for highways, made at the annual meeting, for general use was $30,000, and $6,000 for special expenditure on Boylston street between the Reservoir House and Brighton street. The Selectmen believe that this special appropriation will be sufficient to accomplish the object for which it was made. The expenditure on highways generally has been $30,238.24, and they now ask for an appropriation of $15,000, $7000 of this to be expended in Pond street in filling that street from the Ward schoolhouse southerly. This work can be done at a comparatively cheap rate, as the contractors for building the new reservoir on Parker's Hill will deliver any needed amount of material in Pond street, at $4.25 a square. The Brookline Land Company have just constructed a fifty-foot street, from High street to Pond street, and tell us, if we will make Pond street of the same grade where this street intersects it, they will fill up their lands in that vicinity to that grade. These lands are now low, and as they will probably soon be built over it is important that a suitable grade should be early established there for sanitary motives, as well as from economical grounds to the town. Three thousand five hundred dollars will be needed to complete the work of grading Boylston street on its southerly side from the house of Edward O. Marston to the corner of Walnut street, and the remainder of the sum asked for, $4000, is for any work that may be called for this coming winter, doing necessary repairs, cleaning gutters, and removing snow.

For sidewalks, the appropriation at the annual town meeting was $10,000. At that time it was the practice of the town to assess half the cost of constructing sidewalks on the abutters; but at the town meeting held May 1, 1873, it was "*Voted*, That it is inexpedient in the future for the Selectmen to assess any part of the expense of making and grading sidewalks upon the abutters, except in cases where the abutters are more interested than the public in having the sidewalk." As we have thus far constructed no sidewalks where we did not think they were called for by public convenience, we have not been able to avail ourselves of the $10,000 which it was supposed at the annual meeting would be received from the abutters. We have expended on sidewalks $12,104.26, and we now ask for an appropriation of $5000, $1175 of which it is proposed to expend on Washington street from the corner of Brookline avenue to the town line, and on Brookline avenue from the corner of Washington street to the town line. The remainder of the appropriation asked for, $1720.74, is for future expenditure, if, in the opinion of the Selectmen, it should be for the interests of the town to construct any more sidewalks this season, and for laying street crossings in such places as we deem necessary.

For street lamps the appropriations thus far have been $5000; we have expended $5843.03, and now ask for an appropriation of $2000; the $1156.97, we think, will enable us to light up the few dark places that are left in the town, by providing thirty to thirty-five more lamp posts in localities where they seem to us to be needed.

We therefore beg leave to offer the following votes.

The meeting then passed the votes recommended by the Selectmen, as follows; to wit, —

Voted, That there be appropriated for highways, to be expended under the direction of the Selectmen as Surveyors of Highways, the sum of fifteen thousand dollars.

Voted, That there be appropriated for sidewalks, to be expended under the direction of the Selectmen as Surveyors of Highways, the sum of five thousand dollars.

Voted, That there be appropriated for placing street lamps, to be expended under the direction of the Selectmen, the sum of two thousand dollars.

Voted, That the Town Treasurer be authorized to borrow on the credit of the town, under the direction of the Selectmen, the amounts thus appropriated.

Third Article taken up:

To see if the town will establish a school on Heath street, near Hammond street, and buy a lot and buildings for the same.

Voted, That the matter of this Article be referred to the Selectmen, and that they be hereby authorized to purchase a lot of land and buildings on Heath street, near Hammond street, in the upper part of Brookline, and to establish a school therein for the young children of the locality, and that the sum of six thousand dollars be appropriated to purchase the land and buildings and fit up the buildings.

Fourth Article taken up:

To hear and act upon the report of the School Committee respecting the proposed new schoolhouse on the lot taken by the town for school purposes on Francis street, and to appropriate such sums of money as may be necessary for the erection of such schoolhouse.

Dr. Robert Amory, for the School Committee, offered the following

REPORT.

Your committee beg leave to present the following: They have carefully examined into the expediency of a new schoolhouse on Francis street, and in their opinion deem that a new schoolhouse is needed in that locality, but that at present it will be advisable for the town to build only a portion of the schoolhouse, embracing two rooms for the primary department.

In accordance with a vote requesting the committee to report plans and estimates, architects and master builders have been consulted, and in accordance with such consultation, they present for the consideration of the town two plans, with the accompanying specifications, blank form of contract, and estimates of cost. They recommend either of these plans to the approval of the town.

1. The first plan represents a larger building, and will accommodate 9 more scholars in each room. It is a more attractive building, and more suited to the class of houses in the vicinty of the school lot. Its estimated cost, by contractors, is about 13,000 dollars, including an alteration in the slope of the roof, by which a higher-studded room is obtained in the second story.

2. The second plan is plainer in style, is smaller, and consequently will accommodate fewer pupils.

This building is the result of an endeavor, on the part of the committee, to obtain a cheaper building than that first proposed. Its estimated cost is 11,000 dollars.

There is no provision, as in the other plan, for an extension of the schoolhouse when required by future needs, or for the relief of the Pierce grammar school by the addition of a grammar department.

Your committee present the following vote, whose adoption they recommend to the town.

If this vote is not adopted, they beg leave to present another vote concerning the second plan. All of which is respectfully submitted.

ROBERT AMORY,
CHARLES H. DREW,
WM. H. LINCOLN,
R. G. F. CANDAGE,
GEORGE BROOKS,
A. W. BENTON,
S. SALISBURY,
WM. W. NEWTON,
J. E. CABOT,
School Committee.

Brookline, October 28, 1873.

Voted, That the School Committee, R. G. F. Candage, Stephen Salisbury, George Brooks, Austin W. Benton, William W. Newton, J. Eliot Cabot, Robert Amory, William Henry Lincoln, Charles H. Drew, be a special committee authorized and empowered to build a new schoolhouse on the lot of land recently taken by the town for schoolhouse purposes on Francis street; that the School Committee be empowered in the name of the town to sign a contract for a building according to the first plan proposed and amended as provided for by the specifications herewith presented, and that no payment be made to the contractors by the Town Treasurer unless the claim be endorsed by the School Committee or a sub-committee of its members so authorized, and at least three Selectmen at a regular meeting of their board.

Voted, That the sum of $13,000 be appropriated for the above purpose.

Fifth Article taken up:

To see if the town will purchase additional hose and enlarge the stable for the steam fire-engine.

Voted, That the sum of one thousand nine hundred dollars be appropriated for the purchase of additional hose.

Voted, That the sum of two thousand five hundred dollars be appropriated to enlarge the stable of the steam fire-engine, under the direction of the Selectmen.

Sixth Article taken up:

To act upon the claims of parties for labor done and materials furnished on the building of the Town Hall.

Mr. William A. Wellman, chairman of the Building Committee of the Town Hall, presented the following

REPORT.

The Town Hall Building Committee, in their report made at the annual town meeting, on the 11th of April last, stated that the carpenter notified them on the 7th of January of his inability to complete his contract, and that they proceeded, as provided in the agreement, to finish the building, the payments to be charged to Mr. Melcher's account.

They have now to report that the bills paid for said work amount to $6564.12, and that there remains in the Town Treasury an unexpended balance of the appropriation of $2560.

Your committee have further to report that lien claims for labor done on the building have been filed with the Selectmen by six workmen, amounting in the aggregate to $470.22; and also a claim by George Moulton, stair builder, for materials and labor, for $2309.75, and there are other outstanding balances due to sub-contractors from Mr. Melcher, the exact amount of which we are unable to state, but which will not probably exceed $4500, which the committee have not recognized, as they have no authority to liquidate them. They have only to report the facts, and leave it for the town to determine what action is necessary to settle with the carpenter, and the outstanding balances under his contract.

It is due to Mr. Melcher to state that up to the time when he vacated his contract, his work was well done and meets general approval, and he has the sympathy of the committee in his misfortunes; but they have no authority to assume for the town his obligations.

Respectfully submitted,

W. A. WELLMAN,
JOHN C. ABBOTT,
AUGUSTINE SHURTLEFF,
WM. ASPINWALL,
Committee.

Lee be a committee for the purpose of preventing the annexation of the town of Brookline, or any part thereof, to the city of Boston, and that they be authorized to employ counsel and such other means as they may deem expedient; and for the purpose of defraying the expenses thereof, that they be authorized to draw orders upon the Treasurer, to be signed by a majority of said committee, which orders shall be paid by the Treasurer and charged to the appropriation for contingencies. Said committee may fill any vacancies in their number occasioned by resignation or otherwise.

The Ninth Article taken up:

To hear and act upon the reports of the Committee on Water Supply, appointed at a meeting of the town May 1, 1873, and to take definite action respecting a supply of water for the town, to make all appropriations necessary for that purpose, and to adopt such rules, regulations, or ordinances as may be deemed advisable.

The report of the committee appointed by the town May the first, 1873, to whom was referred the subject of examining into the sources of water supply and report to the town, presented their report on that matter, which had been printed and distributed to the inhabitants of the town.

Voted, To accept the report, that the committee be discharged, and that the thanks of the town be presented to them for the faithful and impartial manner in which they have discharged their duties.

On motion of Henry V. Poor, it was —

But that said commissioners take no action in relation to works for taking water from Charles river until after the meeting to be held in adjournment of this meeting.

The following rules, regulations, and ordinances, prepared by a committee appointed for that purpose March 19, 1873, which were presented at the annual meeting March 31, 1873, and laid over, were again presented slightly amended, and were read by Mr. C. Ordinances concerning Water Commissioners.

Section 1. Whereas the General Court in the year one thousand eight hundred and seventy-two passed an Act entitled "An Act to authorize the town of Brookline to take water from Charles river," being Chapter three hundred and forty-three of the Acts of said year; and whereas, at a legal town meeting of the inhabitants of said town, holden on the seventh day of May A.D. 1872, said Act was duly accepted by a majority of the legal voters of said town present and voting thereon, in accordance with the provisions of said Act; and whereas, at a legal town meeting of said inhabitants, holden on the twenty-seventh day of February A.D. 1873, said Act was again accepted by a majority of the legal voters of said town present and voting thereon, the vote being taken by ballot and the check list being used; and whereas, at a legal town meeting of said inhabitants, holden on the nineteenth day of March A.D. 1873, by adjournment from the eighteenth day of March A.D. 1873, said town voted that it thereby declared that it proposed to take seven hundred and fifty thousand gallons of water daily from Charles river, in accordance with the provisions of said Act; and whereas, at the town meeting last mentioned, the town voted to issue scrip or certificate of debt for the purpose of introducing said water into said town, and that three commissioners, to be styled "Water Commissioners," should be chosen by ballot in the manner set forth in said vote: Therefore the said votes are hereby ratified, confirmed, and passed again by a majority of the legal voters of said town present and voting thereon at this legal meeting of said inhabitants, except so far as the said votes may be modified by the present ordinance, which the said town now passes for the purpose of introducing water from Charles river into said town in accordance with the provisions of said Act.

Section 2. For the purpose of carrying into effect the provisions of said Act, and for the purpose of introducing said water into said town, there shall be chosen by ballot at the annual meeting holden in the year 1873, three inhabitants of the town of Brookline, who shall be styled "The Brookline Water Commissioners," one of whom shall be chosen to hold office until the annual meeting in 1874, one to hold office until the annual

meeting in 1875, and one to hold office until the annual meeting in 1876, and at every annual meeting after 1873, one Commissioner shall be chosen to hold office until the annual meeting in the third year after the meeting at which he shall have been chosen. In case of a vacancy by death, resignation, removal from town, or other cause, the vacancy shall be filled at the next town meeting after the occurrence of such vacancy, unless the water works contemplated by said Act shall be sooner completed, and in that case, until the completion of said works, when the offices of said commissioners shall expire.

Said commissioners shall choose their chairman annually at their first meeting after the annual town election, and two commissioners shall be a quorum for the exercise of the powers and performance of the duties of said office.

Section 3. Said commissioners shall receive as compensation for their services a salary of one thousand dollars each per annum, payable quarterly.

Section 4. Said commissioners shall have authority to convey into and through said town the waters of said Charles river, in accordance with the provisions of said Act, and shall have and exercise all the powers conferred on said town by said Act, and may take, by purchase or otherwise, the waters of said river, and any water rights connected therewith, and any real estate necessary for laying aqueducts and forming reservoirs, and for any of the purposes of said Act, and may also make contracts for labor and materials for the construction of said water works, which shall be valid and binding on said town, and which may be suitable and proper for executing, facilitating, expediting, and finishing the works in the most speedy, economical, advantageous, permanent, and effectual manner.

Section 5. Whenever said commissioners shall take, by purchase or otherwise, any lands, water, water rights, or water sources for the purposes mentioned in said Act, they shall without unnecessary delay make and deliver to the Selectmen a certificate, signed by them, containing a statement of the fact of such taking, and a description of the lands or water sources so taken, as certain as is required in a common conveyance of lands, and a statement of the purposes for which they are so taken, to the end that the Selectmen may cause such statements and descriptions, signed by them, to be filed in the Registry of Deeds of the county and district in which said lands, water rights, or sources lie, as required by the second section of said Act.

Section 6. All work, except as hereby otherwise provided, shall be done by contract, and all contracts for labor and materials in the prosecution of said work shall be in writing and executed in triplicate, one of which triplicate shall be kept by the commissioners, one shall be delivered to the Town Clerk, and one to the contractor, and no such contract shall be executed unless good and satisfactory security for the faithful performance of the same, and also to indemnify and save the town harmless from and against all claims against said town by persons who may have done work or labor in the construction, erection, and preparation of said works, at the request of such contractor, shall be given by the contractor and approved by the commissioners. Said commissioners, when not otherwise authorized by the town, shall advertise in one or more

newspapers in Boston, and in such other places as they may think best, for sealed proposals for all such contracts, specifying the time and place where the same shall be received; and such proposals, in order to be received and acted upon, shall set forth a specified sum or price to be paid for all such labor or materials, or for either, without condition, limitation, or alteration, and shall be accompanied with a bond satisfactory to the commissioners, conditioned for the faithful execution of the proposal if the same shall be accepted, and the contents of any proposal shall not be made known to any person not a member of the commission, until a contract shall have been made; provided that said commissioners may in their discretion reject any or all such proposals; and no contract shall be assigned without the written consent of said commissioners. Said Commissioners shall give preference in making contracts, all other things being equal, to citizens of the town, and to citizens of long residence, over citizens of recent residence. Nothing herein contained shall require said commissioners to advertise for proposals for the ordinary extension of street mains and water pipes, or repairs of the water works. Said commissioners shall have power and authority to employ such engineers, agents, clerks, and servants as they may deem necessary, and to agree with them for their compensation, which shall be paid out of the town treasury.

Section 7. No one of said commissioners, as a town officer who receives compensation from the town for his services, and no person appointed to any office or employed by virtue of this ordinance, or by the aforesaid Act, shall be interested directly or indirectly in any bargain, contract, sale, or agreement in relation to said water works, or any matter or thing connected therewith, wherein the town is interested, without an express vote of the town previously passed; and any and all contracts, bargains, sales, or agreements made in violation of this section shall be void as to the town.

Section 8. It shall be the duty of the commissioners to exercise all reasonable vigilance and care by personal inspection, examination, and supervision, from day to day or from time to time, as circumstances may require, of all matters and things herein committed to their charge; to see that all works, matters, and things to be done, executed, and performed by and through their agency, and under their superintendence, by virtue of the Act aforesaid and of this ordinance, shall be done, executed, and performed in a substantial, economical, and effectual manner; that all the engineers, officers, clerks, agents, and other persons who may be employed by them in the works aforesaid, execute and discharge the duties and labors assigned to them, respectively, in a diligent and faithful manner; and that all contracts and agreements made and concluded by them in the execution of the duties of their office are faithfully and properly executed and performed.

Section 9. The commissioners shall enter or cause to be entered in a book to be kept for that purpose, and which shall be subject to the inspection and examination of the Selectmen, or of any committee appointed by the town for that purpose, a journal, account, or record of all rules, orders, votes, appointments, resolutions, proceedings, and other official acts which may from time to time be adopted by them; and the said com-

missioners shall, at the beginning of each month during their continuance in office, make a report in writing to the Selectmen of their proceedings during the month next preceding such report. And the Selectmen shall annually, and at any special town meeting, make a report in writing to the town of all matters communicated to or known by them concerning the works aforesaid.

Section 10. In order to enable the Selectmen and Treasurer seasonably to raise and provide the funds necessary for defraying the costs and expenses which may from time to time be incurred in the prosecution of the work, and for carrying into full effect the purposes and objects of the Act aforesaid and of this ordinance, the commissioners shall from time to time seasonably make and prepare, with as much particularity as may be useful and practicable, estimates, for the use of the Selectmen, of such sums of money as in their judgment may be required, and statements of the purposes for which said sums respectively are to be appropriated and applied.

Section 11. It shall be the duty of the commissioners to investigate promptly all cases in which it appears probable that any damages may be claimed of the town by any person or corporation for any alleged injury to the body or the property, real or personal, of such person or corporation by reason of any decision, action, or operation of said commissioners, or of others employed by them in the performance of any of the matters and things committed to their charge by the Act aforesaid and this ordinance; and to make forthwith a memorandum in writing of all the important facts and circumstances relating thereto, together with a list of the names of all persons whose testimony concerning the particulars of such alleged injury may be deemed important by said commissioners, which memorandum they shall file and preserve.

Section 12. In all suits, processes, and questions in law or equity which may be commenced, prosecuted, or pending by or against the town in any court, or before any other tribunal, for or by reason of any act, proceeding, or contract of the commissioners or of the town, or for any other cause arising from the execution of the powers and authority given by the provisions of the Act aforesaid and of this ordinance, the commissioners shall aid and assist the counsel employed in behalf of the town, by giving information of all facts within their knowledge, and furnishing any documents, testimony, and evidence in their possession or control which may be material, important, or useful in establishing the rights and protecting the interests of said town.

Section 13. All bills on account of said water works shall be examined by said commissioners, and if found correct shall be so certified by them, and that the same have been incurred in the construction of the water works; and the Selectmen shall draw their order therefor upon the Treasurer.

Section 14. This ordinance and all its provisions, and all votes of the town, shall be subject to such revision, alteration, amendment, or repeal, at the discretion of the town, as shall not be inconsistent with the provisions of the Act of the Legislature aforesaid; and all votes of said town inconsistent with this ordinance are hereby repealed.

three, and were called to order at three of the clock in the afternoon, by the Moderator, Charles H. Drew.

Records of the last meeting read and approved.

The Committee on Water Supply presented the following

REPORT.

The undersigned, a committee of the town of Brookline, appointed to consider the question of obtaining a supply of pure water for the town, have attended to the duties assigned them, and herewith submit their final report.

A printed report of the action of said committee up to September 3, 1873, was laid before a meeting of said town on the 27th October, 1873. As this report has been widely distributed in the town it will not be necessary to refer here to the matters and conclusions contained in the same.

On the appointment of this committee the sum of $5000 was appropriated and placed at their disposal to defray the expenses of the investigation. Of this amount $3683.49 has been expended according to an account hereto annexed, leaving $1316.51 in the hands of the Treasurer of the town.

It having been brought to the attention of this committee that the city of Boston, having recently obtained the control of the water supply of Mystic lake, might be in a better position to sell a supply of water to the town than before, an inquiry into the capacity of the source was made. From all the information they could gather after a careful investigation of the subject, your committee reached the conclusion that any additional quantity of water obtainable from Mystic lake would not produce any reserve for Boston to draw upon, as far as Brookline is concerned, for the reason that all the present and future supply would be required for the locality now dependent on it.

In reference to the supply from Lake Cochituate, the committee were informed that the conduit between the lake and Chestnut Hill reservoir was in a critical condition, and that it was now taxed to its utmost capacity to meet the wants of the city.

From all the statements made, and information acquired in the pursuit of this investigation, your committee are of the opinion that the town of Brookline would not be justified in expecting to obtain water by purchase from Boston, as she has now none to spare and consumes all she can obtain, and your committee do not believe her resources will be availably increased until the introduction of Sudbury river.

In the course of this inquiry your committee had an interview with the Joint Standing Committee on Water of the Aldermen and Council of the city of Boston, and the following communication was laid before them: —

BOSTON, November 28, 1873.

Gentlemen, — The undersigned committee of the town of Brookline on the subject of procuring a supply of pure water for said town, were instructed to apply to the city of Boston as one of the sources of supply. We now desire on behalf of the said town to be informed whether said

city will supply said town with water, and if so, upon what terms, the town bearing the expense of its distribution and delivery.

The town is now making contracts for the laying down of water mains through its streets, and has made an appropriation of $200,000 therefor. The town has also made a further appropriation of $200,000 for the purpose of constructing an independent system of works from Charles river, and for which full authority has been obtained. The latter appropriation is to be used without delay should our application to said city be unfavorably received.

As the town desires to make the most rapid progress possible in procuring a supply of water, you will, we trust, appreciate the importance of an early answer to this communication, as we are instructed to lay your decision in the matter before a meeting of the voters of the town to be held on the 9th of December next, for its final decision.

James M. Codman,
Augustine Shurtleff,
Henry V. Poor,
Franklin Darracott,
John C. Abbott,
S. Dana Hayes,
Charles H. Stearns,
Committee on Water Supply for the Town of Brookline.

At this interview, after a general discussion of the matter, the accompanying vote was passed by a majority, in reply to our communication: —

City of Boston,
City Hall,
In Committee on Water,
December 2, 1873.

Voted, That in the opinion of this committee the city of Boston will be enabled to furnish the town of Brookline with 500,000 gallons of water per day as soon as said town provides the necessary facilities for its distribution, and that upon the completion of the new conduit for introducing an additional supply from Sudbury river, said town can be furnished with as large an amount as the inhabitants may desire.

Attest: W. W. Clapp,
Asst. Clerk of Committee.

It was stated, however, that we must not consider this vote as binding on the city government in its action, or upon themselves in any future action, but as the opinion of the majority of the present committee that our low service could be supplied if authorized, but not as expressing an opinion that it would be permitted, or that they should advise such a course.

In conclusion, your committee ask to be discharged.

James M. Codman.
Augustine Shurtleff.
Henry V. Poor.
Charles H. Stearns.
Franklin Darracott.
J. C. Abbott.
S. Dana Hayes.

Voted, That the report be accepted and placed on file.

The committee to whom was referred the Seventh Article, viz., "To see if the town will take any action in relation to purchasing land for a cemetery," reported as follows: —

BROOKLINE, Mass., December 9, 1873.

The committee appointed to examine a lot of land for a public cemetery have attended to that duty, and report in part.

They unanimously concur in the recommendation of a previous committee, in a favorable judgment of the lot of land belonging to heirs of W. H. Cowan, situated on the corner of Clyde and Warren streets, and containing about 20 acres of land.

Your committee consider this lot as eminently suitable for a public cemetery, and possessing remarkable advantages for development. But as their time and opportunities have not been sufficient for examination in detail, they recommend that this lot be further examined in detail, and that your committee be authorized to employ the aid of competent experts to investigate and report upon this lot and its capabilities, and that a small appropriation be now made for this purpose, to be expended under the direction of the committee. GEO. F. HOMER,
Chairman.

Voted, That Messrs. George Tyler and Thomas S. Pettengill be added to the Committee on the Cemetery, and that the committee be instructed to report in detail, and that the sum of five hundred dollars be appropriated for that purpose.

Voted, That the Committee on Railroad Accommodations be instructed to confer with the Metropolitan and Boston & Albany Railroad Companies for the purpose of obtaining better railroad accommodations for the town.

Dissolved.

Attest: B. F. BAKER,
Town Clerk.

Third Article taken up:

To hear and act upon the reports of town officers and committees.

Mr. Thomas Parsons presented the following reports of town officers and committees which had been printed and distributed among the inhabitants of the town previous to the meeting, which were read by their titles; to wit, —

Treasurer's report of the receipts and expenditures of the town of Brookline; also report of the Selectmen, and reports of the Trustees of the Public Library and the Board of School Committee, with a list of taxes and the names of the taxpayers for the year ending February 1, 1874.

Voted, To lay the reports on the table.

Mr. George F. Homer presented the following report for the committee appointed October 28 to consider the subject of purchasing land for a cemetery; to wit, —

REPORT.

The committee appointed by the town to examine and report a suitable lot for a public cemetery, respectfully present the following as the result of their investigations: —

The committee have examined several lots of land to which their attention has been called:

First. A parcel of land situated on Heath street, belonging to the estate of the late J. Sullivan Warren, and containing, according to the survey of the town engineer, about sixty-two acres. This lot can be bought on favorable terms, and for a price deemed reasonable by your committee.

A sum between sixty-five and seventy thousand dollars will be required to purchase and fit this lot for cemetery purposes, for which it is admirably adapted. This is a splendid lot of land, and, beyond doubt, free from all objection.

Second. The "Cowan lot," on the corner of Clyde and Warren streets, containing nearly twenty acres, has already received the favorable notice of your committee.

It is a beautiful and picturesque spot.

The price of the lot is fifty thousand dollars. It would require a considerable outlay to fence and prepare it for a cemetery.

Third. A lot of land on Grove street, containing about ninety acres of land, formerly belonging to Mr. Willard A. Humphrey, was offered to your committee for $1600.00 per acre, but as the price was deemed altogether too high, and the lot had been previously examined and rejected by the town, your committee did not examine it at the present time.

Your committee do not recommend to the town to purchase any land for a cemetery at the present time.

They present to the town their judgment of the lands offered and available for this purpose.

It is for the citizens to determine whether they will purchase either of the lots designated.

Your committee have the honor to add that no part of the appropriation for this object has been expended.

And your committee respectfully request that they may be discharged.

Brookline, March 21, 1874.

By order of committee,

GEO. F. HOMER,
Chairman.

Voted, That the report be accepted and the committee discharged.

Voted, That the report be printed and distributed.

Voted, To take up the report of the engineers of the Fire Department.

Moved by Alfred Kenrick, Jr., that a special committee of three be appointed by the chair to take into consideration the subject of a telegraphic fire-alarm, and report at the next meeting.

Laid on the table.

The following report on Guide Posts and Boards was presented and accepted; to wit, —

And the owners of the lands abutting on said way and of the fee of the land over which said way is laid out, in consideration of the town laying out and making said way, agree to waive all claims for land or grade damages.

There being no structures, buildings, trees, walls, fences, or hedges standing upon the land taken for said way, the same may be entered upon at once by the town for the purpose of constructing the same, and the estimated cost of making said way, with curbstones and gravel sidewalks on both sides, will be about $3840.00.

Under the Ninth Article of the annual town meeting warrant, this subject was referred to the Selectmen, and they report it ought to pass.

The Selectmen presented the following report on the laying out of said way, which had been printed and distributed among the inhabitants of the town; to wit, —

The Selectmen of the town of Brookline, after giving legal notice to all persons and interests known to them of their intention to lay out as a town way the private way called Gorham avenue, leading from Cypress street to Tappan street, did, in pursuance of said notice, meet at their office in the Town Hall on Monday, the twentieth day of October A.D. 1873, at seven and a half o'clock in the evening, and proceeded to hear all parties and interests present and desiring to be heard in relation thereto, and again by adjournment from time to time, until the second day of March, 1874; and all parties and interests which had appeared having been heard and examined in relation thereto, and said route having been examined by the Selectmen, they proceeded to locate and lay out said way, describing it by the centre line as follows; to wit, —

Commencing at a stone post in the westerly line of Cypress street,

358.43 feet north from the northerly line of the playground or park, and running N. 62° 12′ W., 680.96 feet to a stone post; thence curving left with a radius of 60 feet, 77.29 feet; thence South 43° 58′ 50″ W., 290.31 feet, to the end of that part of Gorham avenue adopted by the town March 27, 1871 (meaning hereby to extend Gorham avenue from Cypress street to the portion of Gorham avenue formerly laid out as above), taking equal widths of 20 feet on each side of said above-described centre line, through the entire length of said way, and also to curve the corners of said way at Cypress street with a radius of 20 feet tangent with the side lines of said way and Cypress street, and also the corner at the junction of the easterly line of Davis avenue with the southerly line of said way, with a radius of 20 feet tangent with the easterly and southerly lines of said ways.

The location of said way is in accordance with a plan and profile of the same as drawn by George Tyler, civil engineer, dated March 9, 1874, and accepted and allowed by the Selectmen, and filed in the office of the Town Clerk the same day.

And the owners of the lands abutting on said way, and of the fee of the land over which said way is laid out, in consideration of the town laying out and making said way, agree to waive all claims for land and grade damages.

There being no structures, buildings, trees, walls, fences, or hedges standing upon the land taken for said way, the same can be entered upon at once by the town for the purpose of constructing the same, and the estimated cost of making said way with a curbstone and gravel sidewalk on one side will be $1930.00.

And said way so laid out, located, and described is hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, is forever to be known as a public town way.

Thirty-first Article taken up for consideration:

To see what action the town will take in reference to a settlement, by reference or otherwise, of the suits of Thomas Aspinwall against the town.

The committee to whom was referred the subject matter of the Thirty-first Article presented the following

REPORT.

TOWN OF BROOKLINE.

The committee to whom was referred the Thirty-first Article in the warrant, with directions to report thereon at the adjourned meeting to be held December 15, 1874, now report that they have received from Mr. Aspinwall a proposition to submit all claims and matters of controversy connected with the laying out and construction of Aspinwall avenue to the arbitration and final award of three gentlemen, named by him, as referees; and also to submit all claims growing out of the laying out and construction of the sewer by the line of the railroad to the same referees, or to others to be agreed upon or selected.

This proposition has received the unanimous approval of the Selectmen.

The committee therefore submit the proposition to be laid before the town for its action thereon, together with such votes as they deem appropriate to carry the proposition into effect, if it shall be accepted by the town.

1. *Voted*, That the proposition of Mr. Thomas Aspinwall, to submit certain claims against the town, and against individuals acting in behalf of the town, to arbitration, be accepted.

2. *Voted*, That the Selectmen be authorized and instructed to take such action as may be necessary and proper to carry said proposition into effect, and also to protect the interests of the town in the hearings before the referees.

3. *Voted*, That the Chairman of the Selectmen be authorized to execute and acknowledge, in behalf of the town, any formal agreement of submission that may be required.

All which is respectfully submitted.

Brookline, December 15, 1874.

JOHN WELLS.
THOMAS H. TALBOT.
FRANKLIN DARRACOTT.

Proposition.

To Messrs. JOHN WELLS, THOMAS H. TALBOT, and FRANKLIN DARRACOTT, committee appointed by the town meeting of Brookline held November 30, 1874, under the Thirty-first Article in the warrant, to recommend a method of settling the suits of Thomas Aspinwall:

Gentlemen, — Understanding that it will be agreeable to you to receive and consider a proposition from me for a reference of these suits, I submit as follows: —

The suits of Thomas Aspinwall, arising out of the action of the town of Brookline in 1872 and 1873 in laying out and accepting a town way by widening Aspinwall avenue, and in making said town way at its actual grade, that is, from Harvard street to the bridge over the Brookline Branch Railroad, and from that bridge to Brookline avenue, to wit, —

(1) A petition pending in the Superior Court for Norfolk County, alleging damages caused by said widening, and asking that the same may be determined by a jury;

(2) A suit against the inhabitants of Brookline and certain Selectmen for alleged trespass, pending in the same Court;

(3) A petition to the County Commissioners of said county, alleging damages caused by raising and lowering said highway, and asking that the same may be assessed by a jury, — may be referred for hearing and conclusive determination to a board of referees composed of Hon. John Wells, of Brookline, Hon. William Gaston, of Boston, Hon. Waldo Colburn, of Dedham.

In this hearing and determination, the above action of the town is to be considered as authorized by law, and the petitioner is to execute, upon payment of the award of said referees, such release as they shall have prescribed in order to secure to the town an easement of way in the land covered by the award, free from any other claim for damages, even if it shall be found expedient to lay out anew the same town way or to lay out or alter the highway so as to extend over the same land, or to take any other proceedings to legalize said action of the town.

The suit against the inhabitants of Brookline in tort, alleging injury to certain lands of Thomas Aspinwall by laying out and constructing a sewer, pending since 1870 in the Superior Court for Norfolk County, may be referred to the same board for like conclusive determination, with authority to prescribe such release as shall be found necessary to secure to the town whatever easement shall be paid for under said award. Or for the last-named two of the above referees may be substituted two engineers, one to be chosen by the town and the other by Thomas Aspinwall.

Along with this last suit, for the purpose of simplifying remedies, may be referred, if the town desires, not otherwise, a suit for part of the same cause of action against James Driscoll, pending in the same Court.

This offer is made on the understanding of the plaintiff that the town has assumed the defense of said suit, and if acceded to is not to be considered as a waiver by the town of any ground of defense.

This proposition is to become binding upon Thomas Aspinwall as soon as accepted by the town in the town meeting which commenced on the 30th November, 1874.

I remain, gentlemen,
Your obedient servant,
WILLIAM ASPINWALL,
Brookline, December 8, 1874. *Attorney for* Thomas Aspinwall.

[Endorsement on the above.]

The Selectmen assent to the proposition of the committee appointed by the town, upon the matters of difference between the town and Thomas Aspinwall, to submit the same to Hons. John Wells, William Gaston, and Waldo Colburn as arbitrators.

THOMAS PARSONS,
CHARLES D. HEAD,
CHARLES K. KIRBY,
HORACE JAMES,
AUSTIN W. BENTON,
Brookline, December 14, 1874. *Selectmen.*

Voted, To accept the report.

Voted, That the votes recommended be adopted.

The meeting then passed the following votes; to wit, —

Voted, That the proposition of Mr. Thomas Aspinwall, to submit certain claims against the town and against individuals acting in behalf of the town, to arbitration, be accepted.

Voted, That the Selectmen be authorized and instructed to take such action as may be necessary and proper to carry said proposition into effect, and also to protect the interests of the town in the hearings before the referees.

Voted, That the chairman of the Selectmen be authorized to execute and acknowledge, in behalf of the town, any formal agreement of submission that may be required.

Voted, To take up the Sixth and Seventh Articles which had been referred to a committee.

Laid on the table.

Voted, To take up the Twentieth Article:

To hear and act upon the report of the committee on the cost of a suitable and appropriate memorial structure in honor of the soldiers and sailors from this town who lost their lives in the late war of the rebellion.

The committee to whom was referred the subject matter of the Twentieth Article presented the following report; to wit, —

REPORT.

The committee appointed at town meeting held April 27, 1874, to "ascertain the cost of a suitable and appropriate memorial in honor of the soldiers and sailors of this town who lost their lives in the late war of the rebellion," have endeavored to attend to their duty, and respectfully report, that after careful examination the committee soon decided that the simple and only duty before them was to ascertain the *cost* of such memorial, and report upon the same at a future town meeting.

Accordingly, in surveying the field, and before making much progress in ascertaining cost, the committee found, upon consultation, that they were unanimous in the opinion that a people of the intelligence, patriotism, wealth, and critical taste existing in the town of Brookline, need place little dependence on the experience of neighboring towns who have already acted in the matter, with more or less success, — particularly the latter, — but under such differing circumstances as to make their experience a very imperfect guide for this town.

They therefore at once took measures to ascertain the cost of an architectural structure, which they believed would be in better keeping with the subject, because free from party or military bias, and calculated

to commend itself to the general observer, as well as those of more cultivated taste. This would also have the additional merit of being adapted to answer as a memorial structure in behalf of those residents of the town who fell in the war of the revolution, in case the town so desired.

As the result of their investigation, which has been pursued with considerable care, they are quite satisfied that "a suitable and appropriate soldiers and sailors' memorial" structure of an architectural character, and in good taste, and one that will be a substantial and attractive ornament to the town, of ten or twelve feet base, and from twenty-five to forty feet in height, can be thoroughly built in the best material of Concord or of rose-colored granite, done in the finest and most artistic manner, including the cost of everything excepting the small item of grading and fencing, for the sum of eighteen thousand dollars ($18.000).

It should perhaps be yet more distinctly stated that this sum of eighteen thousand dollars ($18,000) cost has been arrived at through the judgment of careful and experienced architects, who have exhibited sketches and plans, and also from actual proposal given by responsible contractors who offer to give bond to build the structure for the sum named.

The committee would willingly have gone further and reported designs and plans, as some may perhaps have expected they would do, but the vote under which they acted restricted them to the points they have presented herein, and, rather than exceed their powers, they preferred to leave further action to a building committee, to whom such matters would properly belong, should the town see fit to act in this direction. The committee would only add that they have expended but two thirds of the town appropriation allowed to them for investigating the matter; viz., the sum of two hundred dollars ($200), and respectfully ask to be discharged.

Respectfully submitted,

MILTON J. STONE.
WILLARD Y. GROSS.
GEO. P. RICHARDSON.
B. F. BAKER.
H. M. WHITNEY.

The Committee on Soldiers and Sailors' Memorial beg leave respectfully to report, —

That in accordance with the instructions of the town meeting held December 15, 1874, wherein it was —

"*Voted*, That the matter be referred back to the same committee, to consider the whole subject of a memorial structure or tablets in the Town Hall, and report the cost of the same:"

The committee would state that they have used due diligence to ascertain the cost of tablets, &c.

Their efforts, however, in this direction have not been successful hitherto, and they have no reason to believe that any such definite information as would be valuable to the town can be obtained without compensation. If, therefore, the town desires this inquiry to be prosecuted further, an appropriation of money should be made for use in ascertaining the cost of tablets, as was made in reference to a memorial structure; the balance of that appropriation, in the opinion of the committee, not being available for this purpose.

In this connection the committee respectfully ask leave to add, that the inquiries they have made have tended to strengthen their previous opinion upon two points:

1st. That tablets cannot be placed in the Town Hall in such manner as properly to perform the office of a "suitable and appropriate memorial" to those whose patriotism the town desires to commemorate.

2d. That the plan of erecting tablets in the Town Hall in commemoration of the soldiers and sailors of Brookline who lost their lives in the late war of the rebellion, the committee have the best reasons for believing, is regarded with unanimous disfavor by their surviving comrades now in town.

They therefore, with these statements, ask for further instructions from the town.

Respectfully submitted.

Twenty-fifth Article taken up:

To see if the town will accept and allow Monmouth street as laid out by the Selectmen.

The Selectmen presented the following report on the laying out of said way; to wit, —

The Selectmen of the town of Brookline, after giving legal notice to all persons and interests of their intention to lay out as a town way the private way called Monmouth street till it reaches the southeasterly corner of the schoolhouse lot on said street, and also a town way from Beacon street opposite to St. Mary's street, parallel to Carlton street, did, in pursuance of said notice, meet at their office in the Town Hall on Wednesday, the fourteenth day of October A.D. 1874, and thence by adjournment to Saturday, November twenty-first A.D. 1874, and all parties and interests which had appeared having been heard and examined in relation thereto, and said route having been examined by the Selectmen, they proceeded to locate and lay out said way as follows, describing it by its centre line: —

Commencing at a stone post on the easterly side of Carlton street, 320 feet southerly from Beacon street, and running N. 69° 42″ E., 633.37 feet, to the westerly side of St. Mary's street, as surveyed by Alexander Wadsworth, May 10, 1852, taking 20 feet of equal widths on each side of the above-described line.

The location of said way is in accordance with a plan and profile of the same as drawn by George Tyler, civil engineer, dated November 21,

1874, and examined and approved by the Selectmen, and filed in the office of the Town Clerk the same day.

And the owners of the land abutting on said way, and of the fee of the land over which said way is laid out, in consideration of the town laying out and making said way, agree to waive all claims for land or grade damages.

There being no structures, buildings, trees, walls, fences, or hedges standing upon the land taken for said way, the same may be entered upon at once by the town for the purpose of constructing the same; and the estimated cost of making said way is about sixteen hundred and eighty dollars, exclusive of curbstones.

And said way as so laid out, located, and described, is hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, is to be known as a public town way; and they would recommend that said way be named and known as Monmouth street.

The Selectmen of the town of Brookline, after giving legal notice to all persons and interests known to them of their intention to lay out as a town way a private way leading from Park street to Marion street, did, in pursuance of said notice, meet at their office in the Town Hall on Wednesday, the second day of September A.D. 1874, and again by adjournment to November 21 A.D. 1874, and proceeded to hear all parties and interests present and desiring to be heard in relation thereto; and the owners of the land over which said way is laid out, in consideration of the town laying out and making said way, agree to waive all claims for land and grade damages; and there being no structures, buildings, trees, walls, fences, or hedges standing upon the land taken for said way, the same may be entered upon at once by the town for the purpose of constructing the same.

Said way having been previously examined, they proceeded to lay out said way as follows, describing it by its southwesterly line as follows: —

Commencing at a stone post on the westerly side of Park street 267.8 feet southerly from the northwest corner of Park and Marion streets, and running N. 49° 58′ 30″ W., 242.19 feet to the end of curved line on Vernon street, as laid out by the Selectmen January 28, 1873, and accepted and allowed by the town February 6, 1873, and afterwards altered and called Marion street, taking an equal width of 40 feet northeasterly of the above-described line the whole length; also curving the corner at the commencement of the above-described line on Park street with a radius of 25 feet being tangent to Park and said streets; meaning hereby to lay out as a town way all that part of Vernon street lying between Park and Marion streets.

The location of said way is in accordance with a plan of the same as drawn by George Tyler, civil engineer, dated November 21, 1874, examined and approved by the Selectmen, and filed in the office of the Town Clerk the same day. And said way as so laid out and located and described is hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, is to be known as a public town way; and they would recommend that said way be named and known as Vernon street.

Second Article taken up:

To hear and act upon the reports of town officers and committees.

The committee appointed on the 30th of November last to

consider the whole subject of claims on the Town Hall, presented the following report; to wit, —

REPORT.

New Town Hall.

The committee appointed at a special meeting of the inhabitants of Brookline, holden November 30, 1874, "to report on all the bills paid on account of the Town Hall, and all claims remaining unpaid," respectfully present the following as their report: —

Upon careful examination by the committee, it appears that, to the present time, there has been paid on account of the new Town Hall and its equipment, and outside work and grading connected therewith, the total sum of $179,556.96; which amount has been paid by orders drawn against the several appropriations of 1870, 1871, 1872, 1873, and 1874, for building, finishing, and furnishing, and adjusting and settling claims on the new Town Hall.

Upon these appropriations orders have been drawn by the Building Committee, the Selectmen, and the committee appointed by the town October 28, 1873, to "audit, adjust, settle, and pay all claims, legal and equitable, of parties who have done work or furnished materials in the building of the new Town Hall." The details of payments will appear in the Treasurer's reports for the several years above mentioned.

The above total cost, to date, of $179,556.96, was paid as follows: —

By the Building Committee	$156,998 07
By the Selectmen	15,711 91
By the Adjusting Committee	6,846 98
	$179,556 96

This amount includes $10,195.99 paid for furnishing halls, ante-rooms, and offices; $7875.00 paid for architects' commissions and competitive designs; $2100.00 for insurance; $1152.25 for coal; care of building, $843.25; heating apparatus, $7184.50: decorations, $5228.74; gas fixtures, $1972.65; and about $7000.00 for grading, granite work, and finishing grounds.

The committee, appointed as above, to "audit, adjust, settle, and pay all claims, legal and equitable, of parties who have done work or furnished materials in the building of the new Town Hall," having, by advertisements and posted notices, duly notified all such parties, held many meetings and considered a large number of claims. The appropriation by the town for this purpose was $7660.00; and the committee have expended $6846.98. All the claims allowed by the committee were for labor and materials furnished under the carpenter's contract, and in each instance the claimant signed a receipt in full of all demands against the town and the contractor.

The amount of the appropriation not being sufficient to pay the claims in full, said committee were obliged to settle a portion of the claims by the payment of fifty per cent thereof, being the sum of $2702.02.

The joint committee, appointed November 30, 1874, have examined the claim of George Moulton, stair-builder, referred to them for adjustment.

This claim was not before the Adjusting Committee, as Mr. Moulton considered that he had a valid legal claim to enforce a lien for his full charges. But Mr. Moulton now appears before your committee, and, substantially admitting that he has no claim against the town which can be enforced at law, asks the town to consider his claim as an equitable one. Mr. Moulton's claim is under the carpenter's contract, and is for work done and materials furnished in stair-building on the new Town Hall. The contract price was $2500, and he has been paid by the contractor $400, leaving his claim $2100. The committee are of opinion that this is an equitable claim, and that Mr. Moulton should be paid at the same rate as similar claims by the Adjusting Committee, and a further allowance in consideration of all the circumstances of his case. They find that he should be paid $1575 upon executing a proper receipt to the town, and a release to the contractor and the sheriff of Norfolk. This is satisfactory to Mr. Moulton.

The Adjusting Committee declined to allow any costs in certain petitions for liens. Your committee think that a portion of these costs should be paid, being for expenses incurred by laborers to enforce their claims, and amounting to about $50.

The Selectmen retained counsel in five suits arising out of these claims, for which the expenses are $70.38. The committee find that this amount should be paid.

Since the appointment of your joint committee, M. K. Chase & Co., of Blue Hill, Maine, have placed with their attorney for collection a claim against the town for $8637.02 for extra granite work on the new Town Hall. This claim is without foundation in the opinion of the architect and Building Committee.

Your committee have been informed that Mr. Melcher, the contractor of the carpenter work on the new Town Hall, desires to have his accounts examined by some committee of the town.

If the town think such examination proper, your committee are of opinion that it should be by disinterested persons, not heretofore connected with the subject.

Having thus examined all the matters to them submitted, and made a full report thereon, including the total cost of the Town Hall and equipments, and of all claims now outstanding, your committee present the following votes, and ask to be discharged.

Twenty-second Article taken up:

To see what action the town will take for the purchase of one or more chemical fire-engines.

The Selectmen, to whom was referred the foregoing article, presented the following —

REPORT OF THE SELECTMEN.

The Selectmen, to whom was referred the Twenty-second Article in the warrant by the following vote: "Voted, that the subject be referred to the Selectmen, to report at a future meeting what engines are the best; also the places where they shall be kept, and how used," would report that they have attended to the duty assigned them, and would recommend that the town purchase one Babcock chemical engine, at a cost not exceeding three hundred and fifty dollars, and that the same be placed in the brick stable of Dr. William R. Lawrence, on Carlton street, and be under the care of some suitable person or persons appointed by the engineers of the Fire Department, providing the storing and care of said engine be assumed by the inhabitants of the locality to be benefited, without expense to the town.

REPORT.

The committee appointed by the town meeting held January 4, 1875, "To select a suitable and appropriate site for the location of a memorial struc-

ture in honor of the soldiers and sailors from the town of Brookline who lost their lives in the late war of the rebellion, and which may serve to commemorate those inhabitants of this town who fell in earlier wars of our country," respectfully report —

That they have selected as a suitable and appropriate site for the location of such memorial structure, the lot of land situated on the northwest corner of Cypress street and Cypress place, owned by the town, and commonly known as the "Library lot," and recommend the passage of the following vote by the town: —

Voted, That the town approve of the selection of the said "Library lot," located on the corner of Cypress street and Cypress place, as a site, and will cause to be erected thereon such structure, provided that the subscribers to a certain fund for the purpose of purchasing said lot for the location of a town library building, will consent to the appropriation of the same for this purpose, upon repayment to them of their subscription, with interest.

Respectfully submitted.

MILTON J. STONE,
Chairman of Committee.

Brookline, January 18, 1875.

James M. Codman presented the report of a minority of said committee, as follows; to wit, —

REPORT.

The undersigned dissent from the report presented by the majority. They feel unable to make a satisfactory selection of a site for a memorial to the soldiers and sailors of Brookline, without considering at the same time the character and cost of such memorial.

As the town has never expressed any decision on the matter, they are in doubt whether the memorial is to be of a description suited for indoors or out of doors; whether it is to take the form of a commemorative mural monument in the Town Hall; whether it should be of a style suitable for an eminence or a plain, for a street corner or a public square; whether it should be a tribute of respect to those persons only who fell in the civil war, or should include also those of previous wars, as suggested in the report of a former committee. All these considerations, together with that of the sum to be appropriated by the town for the purpose, naturally affect the question of the site, and must have their due weight in its selection. A majority of the present committee decided that the above considerations were not covered by their instructions, thus precluding the undersigned from adopting what they believe to be the only correct method of examining the question, and forming a rational and judicious opinion.

The difficulties met with in other towns, and the results attained, admonish us not to form a hasty judgment with regard to anything that is to be of so permanent a character; and in order to obtain a thoroughly good memorial for Brookline, precise information of what is possible to be done from all points of view should be presented to the town for its intelligent action.

The undersigned would therefore respectfully suggest, assuming that the town decide to erect a memorial, that the subject of its style, cost, and site be considered as a whole, be referred to a new committee of five, to be appointed by the Moderator, and that this committee be instructed to report in detail and in print at as early a date as may be practicable, and one week in advance of any town meeting.

And they further recommend that the unexpended balance remaining from the appropriation for a previous committee be placed at their disposal.

JAMES M. CODMAN,
ROBT. AMORY.

Voted, To accept the reports.

Mr. George M. Towle moved that the latter part of the minority report, relating to the style, cost, and site for a monument, be passed by the town.

Mr. William Aspinwall moved to amend the motion by substituting therefor the vote offered by the majority of the committee.

After considerable debate upon the subject, the amendment was adopted by the meeting.

Voted, That when this meeting adjourn, it be to meet in this place on Monday, the twenty-fifth instant, at seven o'clock in the evening.

Voted, To adjourn.

The Selectmen presented the following report on the laying out of said way; to wit, —

The Selectmen of the town of Brookline, after giving legal notice to all persons and interests known to them of their intention to lay out as a town way the private way called Mountfort street, from Prescott street to St. Mary street, did, in pursuance of said notice, meet at their office in the Town Hall, on Thursday, the thirteenth day of May A.D. 1875; and all parties and interests which had appeared having been heard and examined in relation thereto, and said route having been examined by the Selectmen, they proceeded to locate and lay out said way as follows, describing it by its centre line; to wit, —

Commencing at a point on the centre line of Mountfort street, 274.09 feet easterly from its junction with Essex street and running South 80° 55′ East, 872.42 feet, to the westerly side of St. Mary street, taking an equal width of 20 feet, measured at right angles, on each side of the above-described centre line; the location being the same shown in plan of Cottage Farm, made by Theodore Ellis and dated October, 1851.

The location of said way is in accordance with a plan of the same as drawn by Alexis H. French, civil engineer, dated May 17, 1875, examined and approved by the Selectmen, and filed in the office of the Town Clerk the same day.

And the owners of the lands abutting on said way, and of the fee of the land over which said way is laid out, in consideration of the town laying out said way, agree to waive all claims for land or grade damages.

There being no structures, buildings, trees, walls, fences, or hedges standing upon the land taken for said way, the same may be entered upon at once for the purpose of constructing the same.

And said way as so laid out, located, and described, is hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, is to be known as a public town way; and they would recommend that said way be named and known as Mountfort street.

CITIZENS' MEETING, NOVEMBER 24, 1875,

To take Action in Relation to the Death of the Hon. John Wells.

At a special meeting of the inhabitants of the town duly notified and warned, and holden on Thursday, the thirtieth day of December in the year of our Lord one thousand eight hundred and seventy-five, the Fourteenth Article in the warrant calling said meeting was as follows; to wit, —

To see if the town will vote to enter upon its records the resolutions adopted at a meeting of the citizens of Brookline, held on the evening of November 24, 1875, to take action with reference to the death of the Hon. John Wells.

The foregoing article being up for action, it was —

Voted, Unanimously, by a rising vote, that the resolutions in reference to the death of the Hon. John Wells, passed at a meeting of the citizens held on the evening of the twenty-fourth day of November, 1875, be entered upon the town records.

The proceedings, action, and resolutions of said meeting are as follows; to wit, —

"Call.

"*In Memoriam.*

"The citizens of the town of Brookline are respectfully invited to meet at the Town Hall, on Wednesday evening, the 24th instant, at seven and a half of the clock, to take such action as they may deem suitable in relation to the death of our highly esteemed fellow citizen, the Hon. John Wells.

"Brookline, November 23, 1875."

In pursuance of the foregoing notice, a large number of the inhabitants of the town of Brookline met at the Town Hall in said town, on Wednesday, the twenty-fourth day of November in the year of our Lord one thousand eight hundred and seventy-five, and were called to order at a quarter to eight of the clock, by Thomas Parsons, Esq., Chairman of the Board of Selectmen, who addressed the meeting as follows: —

"*Fellow Citizens:*

"We are called upon to mourn the loss of one of our best beloved and most highly respected fellow townsmen. It has pleased our heavenly Father, in his divine providence, to take from our midst by death Honorable John Wells, a true, earnest citizen, an eminent jurist, and an upright judge.

"The Selectmen have considered it their duty to invite the citizens of Brookline to meet this evening and take such action as they may consider best adapted to express their love and respect for the deceased."

Mr. Parsons then introduced as officers of the meeting: Chairman, Theodore Lyman; Secretaries, B. F. Baker and William Hobbs.

The meeting was then called to order by the chairman and prayer was offered by Rev. Mark Trafton, D.D.

George F. Homer, Esq., for the committee appointed by the Selectmen, viz., George F. Homer, John W. Candler, James S. Whitney, Ginery Twichell, Albert Mason, and Thomas Talbot, presented and read the following resolutions, and moved their acceptance; to wit, —

"Resolved, that the inhabitants of Brookline desire to express their deep sense of their loss sustained in the death of their townsman, Hon. John Wells.

"The Commonwealth loses an upright and eminent judge, taken away in the full vigor of his powers, and from the promise of many years of useful and distinguished service.

"But we feel an added loss, that of a wise fellow citizen, devoted to the welfare of our own community, and active to promote its highest interests, and of a man, our neighbor, genial, friendly, and noble.

"This conscientious attention to the duties of citizenship especially claims our grateful recognition. Notwithstanding the exhaustive labors of his position, he gave his large powers of mind to questions in town affairs with the direct earnestness and simplicity of a genuine desire to serve. No man among us contributed more to the solution of difficulties in

town deliberations. He has left us an example of high purpose in the performance of public duties well worthy of study and imitation.

"Resolved, that in token of our earnest sympathy with the family from whose head our departed friend has been taken, and into the privacy of whose great bereavement we would not enter, the Town Clerk be requested to transmit to them a copy of these resolutions."

Mr. Homer then in continuation remarked that, once before, a number of years ago, the citizens of Brookline were called together to take action in relation to the death of Daniel Webster, and the meeting held in the town at that time similar to this did them good, and he was glad that the Selectmen had called the citizens together for the purpose of taking measures expressive of their feelings on this occasion. He loved to think of the deceased as a judge, as a man, as a citizen. He was spoken of in the resolutions as a just judge. The constitution allowed us to have judges not perfect, but as upright and as impartial as it was possible for man to be. Judge Wells was such a man. It was more customary in our day to hear of a partial judge; but the deceased was a man who could be trusted behind the door, in the lobby, talking with your opponent. He was not influenced by the fact whether or not the man before him as he sat on the bench was a friend or a member of the same club. He was the beau ideal of a true American scholar, seeking to give to his town the benefit of his great learning. He did injustice to no man because he was poor or ignorant. He was courteous, urbane, and genial in public and private, and he could be commended by his fellow citizens as a model. They could hold him up and say to all: "That is what Massachusetts institutions have done. We present him to you as a model judge, man, and citizen."

Moses Williams, Jr., Esq., seconded the motion and said, that the death of Judge Wells has caused a serious and severe loss in the community, such as had never been within his remembrance. Departing this life at about the same period that the late Chief Justice Shaw was entering upon his judicial career, he would yet compare favorably with him. In

some departments he was not equalled by any other on this side of the Atlantic, and in the department of equity and the complicated law of real property he had few superiors. His judicial temper was unrivalled, his dignity was real and not assumed, and his kindness and consideration for others were most marked. No one was ever wounded by him or rebuked without cause. His character combined all the elements of strength and sweetness. He was always plain, simple John Wells. In the church of which he was a member his death has left a void which cannot be filled. He was a man, a true type of an American citizen.

The resolutions were then unanimously adopted.

Several gentlemen then addressed the meeting in remarks eulogistic of Judge Wells.

Mr. Edward Atkinson said, —

"Language is inadequate to convey our thoughts when laboring under deep feelings.

"The action of Judge Wells among his fellow citizens was such as to bring out the best results from controversy and heated debate; that during his long residence in Brookline he had never known any one to obtain such paramount influence as Judge Wells. In all debates and controversies in regard to town affairs he had always guided the citizens out into clearness and right, and when men had differed from him they were more apt to look to see where they were wrong rather than where he was. And in all the higher departments of life, and in that high occupation of man, the law, he had added to the sum of useful thoughts, and there would not be a citizen of Massachusetts whose condition would not in some sense be better for the works of the upright judge."

Hon. Ginery Twichell said the town had sustained a great loss in the death of Judge Wells, whom he said was kind and honorable in all the duties of life, and that but few men occupying his position would take so much interest and such an active part in the affairs of the town as he did.

Mr. William H. Lincoln believed that there are no accidents in the economy of God, and in the loss of our neighbor and friend we recognize His wisdom, and to it in this event

we reverently bow. His interest in town affairs was deep and sincere, and in them we shall miss his kind and able counsels.

Mr. William I. Bowditch said, "I have known him long and well. We were students together in the law school, and then, as in his later life, he was faithful, pure, and good."

Gen. James S. Whitney spoke of the early life of Judge Wells, and of his universal reputation for wisdom and integrity. In all the relations of life he has acquitted himself well. In the legislation of the town he was a participator, and aimed to promote its best interests.

Mr. John W. Candler said, we have come up here in this public place to express our appreciation of the eminent man who was loved and respected by us all, and that he rejoiced that in speaking of Judge Wells they did not have to draw the mantle of charity over any acts or blemishes in his character, which would seem to show that the clods of earth were about him. He and our late Vice President, Henry Wilson, were somewhat alike, and they both had sympathies with the people. Therefore, let us cherish the memories of the great and good men who have served us.

Mr. Thomas H. Talbot spoke of Judge Wells as a man of truly liberal culture, courteous and pleasant in all his intercourse with his fellow man; at ease himself, he had the rare and happy faculty of making all others at ease who conversed with him. He studied the ways that make for peace, and was unusually attentive to the duties which led to good neighborhood and kind feelings. He did what he could to lift society to a higher level, and that he always took a deep interest in his church and the denomination, and that his religious feelings were deep and earnest.

On motion of George Griggs, Esq., it was —

Voted, That the Selectmen be requested to insert an article in the warrant for the next town meeting to see if the town will cause the proceedings of this meeting to be entered upon the records of the town.

Attest: B. F. BAKER,
Town Clerk.

Interment of the Dead.

SEC. 7. The Board of Health may give licenses for burials, and for the removal of dead bodies from the town, and point out the place, depth, width, and range of all graves in the several burial grounds, and shall forbid graves to be dug within those limits in such grounds in which, in its judgment, it would be dangerous to the public health to allow graves.

SEC. 8. No person shall bury, or inter, or cause to be buried or interred, any dead body, in violation of any direction or order of the said board given in accordance with the preceding section, or without having first obtained a license so to do.

SEC. 9. No person shall inter, or cause to be interred, any dead body in a grave less than three feet deep, from the surface of the ground surrounding the grave to the top of the coffin.

SEC. 10. On the first Monday of February annually, or within sixty days thereafter, the Board of Health shall appoint, for a period of one year from the first Monday of April in the year in which they may be appointed, such a number of funeral undertakers as may be deemed expedient, and they shall be responsible for the decent, orderly, and faithful management of the funerals undertaken by them, and for a strict compliance with the ordinances of the town in this behalf. Each undertaker may employ porters, of a discreet and sober character, to assist him, and he shall be accountable for their conduct; said undertakers and porters may be removed at the pleasure of the board. No person not appointed as aforesaid shall open any tomb or grave for the purpose of depositing or removing any dead body without the permission of the Board of Health.

SEC. 11. No person shall bury or inter, or cause to be buried or interred, any dead body, at any other time of the day than between sunrising and sunsetting, except when otherwise permitted by the Board of Health.

SEC. 12. No person other than a licensed undertaker or superintendent of cemetery, shall remove any dead body, or the remains of any such body, from any of the graves or tombs in the town, or shall disturb any dead body in any tomb or grave, without the license of the Board of Health.

SEC. 13. The Board of Health is authorized to make and adopt any regulations in relation to the interment of the dead which they may deem expedient.

Vaults and Drains.

SEC. 14. In order to abate a nuisance, the Board of Selectmen, with the approval of the Board of Health, is authorized to permit, under such restrictions not inconsistent with existing by-laws of the town in relation thereto, and on payment of such sums as they may deem expedient, the construction of sufficient passage ways or conduits under ground for the purpose of conveying the contents of any vault, privy, or wet lands into any common sewer or drain.

SEC. 15. If the Board of Health shall at any time be satisfied that any tenement, used as a dwelling-house, is not provided with a suitable privy, vault, and drain, or either of them, as aforesaid, they shall give notice in writing to the owner, agent, occupant, or other person having the care thereof; and in case of neglect or refusal to obey such notice the Board of Health shall cause such privy, vault, and drain to be made for such tenement or other building, at the expense of such owner, agent, occupant, or other person; and in case any such drain, vault, or privy is constructed as aforesaid for the use of more than one house, then the owner, agent, occupant, or other person having the charge of each of such houses shall be liable to pay a proportional part of such expense.

SEC. 16. Whenever any vault, privy, or drain becomes offensive or obstructed, the same shall be cleansed and made free, and the owner, agent, occupant, or other person having charge of the land in which any vault, privy, or drain is situated, the state or condition of which is in violation of the provisions of this ordinance, shall remove, cleanse, alter, amend, or repair the same within such reasonable time, after notice in writing to that effect given by the Board of Health, as shall be expressed in such notice. In case of neglect or refusal so to do, the Board of Health may cause the same to be removed, altered, amended, or repaired as they may deem expedient, at the expense of the owner, agent, occupant, or other person as aforesaid, and such owner, occupant, or other person shall also be liable to such penalties as are prescribed by law or ordinance.

SEC. 17. No cesspool, vault, or privy situated within one hundred feet of any town way or public building, shall be emptied in any other mode, or at any other time than the Board of Health may direct and appoint, subject to such regulations as the board from time to time shall make on the subject, and always at the expense of the owner, agent, occupant, or other person having charge of the tenement in which such vault is situated.

SEC. 18. Books, in which shall be entered all applications for opening and cleansing vaults, shall be kept in convenient places under the charge

of the Chief of Police; such applications shall specify the number of loads, if less than the whole contents of the vault, to be removed, and they shall receive attention in the order in which they are made, so far as practicable.

SEC. 19. Whenever, upon due examination, it appears to the Board of Health that the number of persons occupying any tenement or building in the town is so great as to be the cause of nuisance and sickness, and the source of filth, or that any tenement or buildings are not furnished with vaults constructed according to the provisions of this ordinance, and sufficient privies and drains under ground for waste water, they may thereupon issue their notice in writing to such persons, or any of them, requiring them to remove from and quit such tenement or building within such time as the said board shall deem reasonable. And if the person or persons so notified, or any of them, shall neglect or refuse to remove from and quit such tenement or building within the time mentioned in such notice, the Board of Health are hereby authorized and empowered thereupon forcibly to remove them; and such person or persons shall be liable to a penalty for such neglect or refusal, and for the expense of their removal.

House Offal, Ashes, &c.

SEC. 20. All house offal, whether consisting of animal or vegetable substances, shall be placed in suitable vessels, and no ashes or other refuse matter shall be mingled therewith; and the same shall be kept in some convenient place, to be taken away by the town scavengers, which shall be done as often as once in each week.

SEC. 21. No person shall remove, or carry in or through any of the streets, squares, courts, lanes, avenues, places, or alleys within the town of Brookline, any house dirt or house offal, either animal or vegetable, or any grease or bones, or any refuse substances from any of the dwelling-houses or other places in the town, unless such person so removing or carrying the same, and the mode in which the same may be removed or carried, shall have been expressly licensed by the Board of Health, upon such terms and conditions as they may deem the health and interest of the town require. But all the ashes and cinders made from steam engines, or steam boilers, forges or furnaces, used for mechanical purposes, shall be removed at the expense of the parties occupying the building, or the owners thereof, and at such times and in such manner as the Board of Health may direct.

SEC. 22. No person, without the license of the Board of Health, shall throw into, or leave in or upon any street, court, square, lane, alley, public square, public enclosure, vacant lot, or any pond or body of water within the limits of the town, any dead animal, dirt, sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oyster, clam, or lobster shells, waste water, rubbish, or filth of any kind, or any refuse animal or vegetable matter whatsoever. Nor shall any person throw into, or leave in or upon flats or tide water within the jurisdiction of the town, any dead animal or other foul or offensive matter.

SEC. 23. If any of the substances mentioned in the preceding section shall be thrown or carried from any house, warehouse, shop, cellar, yard, or other place, or left in any of the places specified in the preceding sec-

tion, the owner and occupant of such house, warehouse, shop, cellar, yard, or other place as aforesaid, and the person who actually threw, carried, or left the same, or who caused the same to be thrown, carried, or left, shall severally be held liable for such violation of this ordinance; and all such substances shall be removed from the place where they have been so thrown or left, as aforesaid, by such owner or occupant, or other person, within two hours after personal notice in writing to that effect, given by the Board of Health or any police officer; or such removal shall be made under the direction of said board or its officers, and the expense thereof borne by such owner or occupant.

SEC. 24. All dirt, sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oyster, clam, or lobster shells, waste water, or any animal or vegetable substance, rubbish, or filth of any kind, in any house, warehouse, or other building, cellar, yard, unaccepted street, alleyway, or other place which the Board of Health may deem injurious to the health of the town, shall be removed by the owner or occupant of such house, warehouse, other building, cellar, yard, unaccepted street, alleyway, or other place where the same may be found, within twenty-four hours, or such other time as the Board of Health may deem reasonable, after notice in writing to that effect served personally upon the owner or occupant, or their authorized agent, by any police officer or person competent to serve a notice in a civil suit, or left at the owner's, occupant's, or agent's last and usual place of abode, if the same be known and be within the State, or such removal shall be made under the direction of the Board of Health, and the expenses thereof borne by such owner or occupant, who shall also be liable to a penalty.

Miscellaneous.

SEC. 25. No person shall bring into town any decayed or damaged grain, rice, coffee, fruit, potatoes, or other vegetable product, or any tainted or damaged meat or fish, without a permit therefor from and in such a manner only as directed by the Board of Health.

SEC. 26. Every person offending against any of the provisions of this ordinance for which no penalty is prescribed by the laws of the Commonwealth, shall forfeit and pay a sum not less than one dollar, nor more than twenty dollars for each offence.

SEC. 27. The Board of Health shall also have charge of any buildings which are or may be established within the town limits for the admission of patients having the small-pox or any other infectious disease; and they shall make such rules and regulations for the management and government of the patients and employees as they may deem proper and necessary. And the said Board of Health shall carefully guard against the introduction of any cases of infectious disease into any other buildings under their charge than those appropriated for that purpose by the town.

HORACE JAMES,
MARSHALL RUSSELL,
JAMES M. CODMAN,

Selectmen of the Town of Brookline.

NORFOLK, SS. BROOKLINE, December 8, 1876.

Pursuant to the within warrant, I have notified the inhabitants of the town of Brookline herein described, to meet at the time and place, and for the purposes within mentioned, by leaving an attested copy of this warrant at each house in Brookline, and also posting copies in two or more public places, four days at least before the time set for said meeting.

WILLARD Y. GROSS,
Constable.

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town, on Tuesday, the twelfth day of December in the year of our Lord one thousand eight hundred and seventy-six and were called to order at three of the clock in the afternoon by the Town Clerk, who proceeded to read the warrant calling said meeting, and the

return thereon of the officer who served the notices thereof on the inhabitants.

First Article taken up:

To choose a moderator.

The meeting nominated and chose for Moderator, William I. Bowditch.

Second Article taken up:

To hear and act upon reports of town officers, boards, and committees.

Mr. William I. Bowditch, Chairman of the Board of Selectmen, reported that the town way leading from Boylston street over Fisher's hill to Brighton street had not yet been named.

Voted, That the town way laid out and built over the Fisher and Pierce estates, leading from Boylston to Brighton street, be hereafter known as Fisher avenue.

Third Article taken up:

To see if the town will make an additional appropriation for the support of the poor.

Voted, That five thousand dollars be taken from the thirty thousand dollars appropriated for the construction of sewers and added to the appropriation for the support of the poor.

Fourth Article taken up:

To see if the town will place at the disposal of the Selectmen, in connection with the Trustees of Walnut Hills Cemetery, any sum of money for the prosecution of work in the cemetery during the ensuing winter.

Voted, That $5000 be taken from the $30,000 appropriated for the construction of sewers, and placed at the disposal of the Selectmen, to be by them expended, with the concurrence or consent of the trustees of the cemetery, in paying for such work at the cemetery as in the discretion of the Selectmen can be judiciously done this winter, the object of the town in passing this vote being to afford employment only to our own townspeople.

Fifth Article taken up:

To see if the town will accept and allow a public main sewer from Washington street to Charles river, as laid out and located by the Selectmen.

The report of the Selectmen on the laying out and locating a public main sewer from Washington street to Charles river, which had been printed and distributed among the inhabitants of the town, was then presented and laid before the meeting by the Selectmen.

On motion of Mr. Henry M. Whitney, it was —

Voted, That the report on the laying out of the sewer be referred back to the Selectmen, to report at a future meeting.

Sixth Article taken up:

To see what action the town will take upon the petition of George Griggs and others to the Legislature, that the town of Brookline may be united to Boston, or that a metropolitan system of sewers, drains, and parks be authorized for the territory lying between the Neponset and Charles rivers.

On motion of Mr. Henry M. Whitney, it was —

Voted, That a committee of five be appointed by the Moderator to oppose the annexation or union of the town to Boston, there being at present no desire on our part for such union, and to resist the scheme for a metropolitan system of sewers, drains, and parks, because our scheme for a main sewer will work harmoniously with any one which a metropolitan board would be likely to adopt, and we have no money at present, or in the near future, to expend for a system of parks.

The Moderator appointed the following gentlemen to compose said committee; viz., Messrs. Thomas Parsons, Amos A. Lawrence, Edward Atkinson, John C. Abbott, Alfred D. Chandler.

Seventh Article taken up:

To see if the town will make an appropriation for auditing the accounts of the town.

Voted, That, disclaiming any intention to find fault with a faithful town officer, or even to pass judgment upon the Treasurer's system of keeping accounts, — a system which has been in use for so many years, — the town appropriates from any unexpended or unappropriated balances or funds in the treasury the sum of three hundred dollars for the pay of the Auditors for this year; and the Auditors are hereby

instructed to report in print at the annual meeting next year what changes in the manner of keeping accounts (if any) they consider judicious, and what additional assistance or compensation (if any) the Treasurer, in their judgment, ought to receive, that the town may then consider and act upon the whole subject advisedly.

Eighth Article taken up:

To see whether the town will authorize the Selectmen to employ counsel to defend the town in suits brought against it by the proprietors of mills on Charles river, and others.

Voted, That the Selectmen be authorized to employ counsel to defend the town in all suits, the expenses incurred in defending suits growing out of the introduction of water to be a charge upon, and to be paid from, the money received from water rates; and in all other cases the expense shall be paid out of the contingent fund or any unexpended or unappropriated balances of funds in the treasury.

Ninth Article taken up:

To see what action the town will take to secure better railroad accommodations at the station in the village, and at Cypress street.

Voted, That this town most earnestly expresses its conviction of the necessity, for the best interests of the town, of a new railroad station in the village, with lower rate of fares and more frequent trains, at the earliest possible moment, and instructs the Selectmen to do all in their power to aid the project.

Voted, That the Selectmen be instructed to use all their efforts to induce the N. Y. and N. E. R.R. to carry out all the agreements in reference to the grade crossing at Cypress street, — as to double gates, a station, and stopping the trains, — which the Charles River Railroad deliberately made with the County Commissioners, and to prevent all encroachments on Tappan street.

Voted, That the town ought to have the same advantages as to postal delivery and cheap postage which the other suburbs of Boston now enjoy, and that the Selectmen be requested to communicate this resolve of the town to the Representative of this District in Congress.

Tenth Article taken up:

To see if the town will authorize the Selectmen to give a confirmatory deed of a tract of land in the rear of Prospect street, Brookline, intended to be conveyed to Thomas Seaverns by deed dated July 1, 1867, and recorded in Norfolk Deeds, liber 373, folio 239.

Voted, That the Selectmen be authorized for a nominal consideration to confirm to the persons now holding title under Thomas Seaverns, in fee simple, the parcel of land sold to him by the town in 1867, and intended to be conveyed to him by deed recorded with Norfolk Deeds, lib. 373, fol. 239. This confirmation to contain, however, an express disclaimer of covenant or warranty on the part of the town.

Eleventh Article taken up:

To hear the report of the Water Board, and act upon the subjects and appropriations suggested therein.

The report of the Water Board, which had been printed and distributed through the town, was then presented.

Voted, That the Water Board be authorized to lay water pipes in Beacon street, from the corner of Washington street to the corner of Tappan street; also to refund the sums advanced by sundry petitioners for cost of laying pipes in Webster street, and in Mountfort street and Monmouth court.

Mr. Edward S. Philbrick moved that the Water Board be authorized, until further orders, to make extensions of street mains in such cases as may appear to them to be for the public interest, when the cost is within one thousand dollars in any one locality, and when an income of not less than three per cent of the cost is guaranteed by the petitioners.

On motion of Hon. William Aspinwall, it was —

Voted, That the motion be referred back to the Water Board, with instructions to report at a future meeting some definite policy in reference to the extension of street mains.

Voted, That the sum of one thousand dollars be appropriated to defray the cost of maintenance of the water works during the current year, in addition to the sum of five thousand dollars heretofore appropriated, this to be paid from the receipts from water rates.

Voted, That the Water Board are hereby authorized to

erect a dwelling-house on land belonging to the town, near the pumping-station, for the use of the man or men employed about the engine, at a cost of not over two thousand dollars, to be taken from the amount of bonds issued this year, and to collect rent for the same.

Voted, That the sum of three thousand five hundred dollars be appropriated from any unexpended balances in the treasury to defray the charges for use of public fire hydrants, public buildings, and public drinking fountains, according to rates established February 1, 1876.

Twelfth Article taken up:

To see if the town will authorize the Water Board to sell water, directly or indirectly, to citizens of Boston who reside on or near the division line between Boston and Brookline.

Voted, That the Water Board be authorized to sell water to the city of Boston for the purpose of supplying citizens of Boston, whenever requested by the city of Boston or its authorized agents, provided the whole expense of laying the water pipes shall be defrayed by the city of Boston or the person served; and that without any such request they be authorized to take the water to the line of the land of Mrs. Cleveland in this town, and there sell her what she wants for an agreed sum, or by meter, as they may think most convenient.

Thirteenth Article taken up:

To see if the town will make an appropriation to procure lamp-posts and lanterns, to set the same and have them lighted on Newton street from the West Roxbury line to the schoolhouse, on the petition of Willard A. Humphrey.

Voted, That the Selectmen be authorized to procure eight lamp-posts and lanterns, to set the same and have them lighted on Newton street from the Boston line to the schoolhouse, and to pay for the same out of any unexpended balances in the treasury.

Fourteenth Article taken up:

To see if the town will abate the tax levied upon the real estate of Samuel Shackell for the year 1875, as petitioned for by A. W. Goddard.

Voted, That the Fourteenth Article be referred to a com-

mittee of three, to be appointed by the Moderator, to consider the subject and report at a future meeting.

The Moderator appointed the following gentlemen to compose said committee; viz., Willard A. Humphrey, Thomas H. Talbot, Alfred D. Chandler.

Voted, To take up the Fifth Article:

To see if the town will accept and allow a public main sewer from Washington street to Charles river, as laid out and located by the Selectmen.

On motion of Hon. William Aspinwall, it was —

Voted, That the Selectmen be directed to apply to the Legislature for authority to borrow not exceeding three hundred thousand dollars for the construction of sewers in this town, the principal to be made payable in 20 years from date of the bonds, bearing interest not exceeding six per cent. per annum, payable half yearly. Also to repeal Section 1 of Chapter 134 of the Acts of the year 1875.

Mr. Alfred D. Chandler moved that the vote whereby the meeting voted to refer back to the Selectmen their report on the laying out of the sewer from Washington street to Charles river, be reconsidered.

On motion of Hon. William Aspinwall, it was —

Voted, That the motion to reconsider be laid on the table.

Voted, To adjourn.

Adjourned.

Attest: B. F. BAKER,
Town Clerk.

Third Article taken up:

To see if the town will accept and allow a public main sewer from Washington street to Charles river, as laid out and located by the Selectmen, and to act upon the votes reported by the Selectmen.

The Selectmen presented the following report; to wit, —

Location of Main Sewer.

The undersigned, Selectmen of the town of Brookline, having given printed and written notices to Robert M. Mason and others, trustees under the will of Ebenezer Francis, the Boston and Roxbury Mill Corporation, the city of Boston, Amos A. Lawrence, William R. Lawrence, Mary A Amory, wife of Dr. Robert Amory, the proprietors of Christ church, Longwood, the heirs of David Sears, Sophia D. Wells, widow of Hon. John Wells; Charles Stearns, and the heirs of Marshall Stearns, deceased; the Boston & Albany Railroad Corporation, Isaac Taylor, and the heirs of Thomas Aspinwall (being all the parties known to us or believed by us to be interested in the subject matter of this sewer), that we intended to lay out a main sewer from the Harbor Commissioners' line in Charles River, through St. Mary's street, across the track of the Boston & Albany railroad, through Beacon street and Carlton street, and on and near the north side of the location of the Brookline branch of said railroad, crossing Longwood avenue and Aspinwall avenue, to a point near Aspinwall brook, and thence across the railroad, the brook sewer, the play-ground, and through Brookline avenue, again crossing the brook sewer, and through Washington street, crossing the brook sewer again, to a point near the railroad station; and for this purpose to take lands and to divert water from the brooks and the brook sewers coming within the line of the location of the contemplated sewer; such notices requiring such persons and corporations to appear before us at our room at the Town Hall, on the twenty-sixth day of December A.D. 1876, at 4 o'clock P.M.; and having caused such notices to be actually served according to law, upon all such persons and corporations by a constable of this town, at least seven days before the day so appointed

for the hearing; and having also given notice to them and all other persons and corporations (if any) who may be interested in the subject matter of said sewer, whose names are not known to us, by posting up the same written and printed notices in three public places in the town, and also by causing to be left at each and every house in town a true and attested copy of said notice at least seven days before said day appointed for the hearing, and also by publishing the same notice in the Brookline "Chronicle" before said day. Pursuant to such notices we met at the time and place appointed, and after hearing the parties and their remarks and objections, and the route of the sewer as hereinafter described having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience, and the public health of the inhabitants of this town, that a main sewer should be laid out and maintained by the town as hereinafter described; viz., the axis line of the sewer being thus described: —

The corporation waives all claim for compensation for the easement thus taken by the town in lands owned by them in fee, by virtue of deeds from Charles Stearns, Charles Stearns, Jr., Marshall Stearns, David R. Griggs, Elijah Corey, guardian of Davis heirs, and from Harrison Fay.

The corporation also waives all claim for compensation for the easement thus taken by the town in lands embraced within its location, and over which it has only a right of way for railroad purposes. But the corporation will expect compensation, and we

expect to pay for any damages we may actually inflict on the road in the construction or future repairs of the sewer. We do not, however, see why it will be necessary to inflict any damages on the road for the construction of the sewer.

And we award to the owners in fee of the lands thus held for railroad purposes, in full, for the damages sustained by them, respectively, —

Ebenezer Francis' grantees, being persons unknown to us, about	7020 sq. ft.	$35 10	Ebenezer Francis' grantees.
David Sears' grantees or heirs, being persons unknown to us, about	21930 "	109 65	David Sears' grantees, &c.

Thomas Aspinwall's grantees or heirs, being persons unknown to us, about	14000 "	70 00	Thomas Aspinwall's grantees, &c.
		$9,936 25	

And to each and all of these persons we reserve all rights of way over the railroad location which they now legally enjoy, and also the right to pass over their lands adjoining such location, and hereby taken, so far as may be necessary to enable them to enjoy such easements, but no farther; and propose to pay them, respectively, for all damages to such right of way which they may actually sustain, either in the construction or in the future repair of the sewer; but we do not think it will be necessary to interfere with the enjoyment of these rights of way in the construction of the sewer.

And we have given the owners of the lands through which said sewer is laid out, thirty days from the date of the acceptance of this report by the town in which to remove structures, buildings, walls, fences, hedges, or trees standing on said land.

And said sewer, as so laid out, located, and described, is hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, is to be known as a public main drain or common sewer.

The said plan, profile, and this record have been this day filed by us in the Town Clerk's office.

We request the town to provide by ordinance, or otherwise, what part of the expense of constructing, maintaining, and repairing main drains or common sewers shall be paid by the town, so that we may know what portion of the cost of constructing this sewer shall, after its completion, be assessed upon every person who shall enter his particular drain

therein, or who, by more remote means, shall receive benefit thereby for draining his cellar or land.

We estimate the expense of constructing the sewer at $131,822, and the land damages at $9936.25, making a total of $141,758.25.

Voted, That the Selectmen be instructed to prevent any material encroachment on the drainage capacity now afforded by Muddy river, and they are hereby advised to lay out our side of said river as a sewer, if, in their judgment, it shall become necessary so to do in order to prevent such encroachment.

Voted, That the report be printed for the use of the inhabitants.

The meeting then took up and acted upon the several recommendations in said report, as follows; to wit, —

Voted, That there be appropriated the sum of twenty-five hundred dollars for the salary of the Treasurer and Collector, including clerical assistance. That the Treasurer is hereby instructed to keep, in the form and manner that the Auditors may direct, a cash book, journal, and ledger (and other minor books they may deem necessary), and that any failure or neglect to comply with their instructions be reported by the Auditors to the Selectmen, who shall thereupon, if just cause appears, appoint a bookkeeper or clerk to the Treasurer, who shall receive out of the salary ($2500) appropriated above, such compensation as the Selectmen shall allow; and that all officers, boards, committees, or others intrusted with the disbursement of money, or authorized to incur bills on account of the town, be seasonably notified by the Treasurer of the balances of the accounts against which they are authorized to draw, to the end that no debt shall be contracted in excess of funds appropriated.

Voted, That the Superintendent of Streets, and all other boards, committees, or agents of the town employing persons for the town, whose names are entered on pay-rolls, be required to render to the Treasurer, in addition to the pay-rolls, a monthly list of the names of said employees, with the total amounts paid to each person during the month, and that the Treasurer enter the same in his books, and at the end of the year report to the town the names of all such persons; and the amount so paid to each shall be printed.

Fourteenth Article taken up:

To see what action the town will take in reference to the repairing or rebuilding Longwood avenue bridge.

The committee to whom was referred the consideration of the Fourteenth Article, presented the following report; to wit, —

REPORT.

The undersigned were appointed as a special committee at the town meeting on the 27th March last, under the 14th Article of the warrant, and were instructed in the following terms; viz., —

"To examine carefully the condition of the Longwood bridge, and determine whether or not in their judgment it can be judiciously repaired.

"If they shall determine that it can be repaired, they are to report the probable cost of such repairs at the adjourned, or some future meeting.

"If, however, they shall think that it is unwise to spend any more money in repairing the bridge, they are directed to examine the schemes for a bridge prepared by the Boston engineers, and to report to the town whether, in their opinion, it is expedient for us to adopt either of them, and if neither, then what plan we had better adopt, and the probable cost of the work."

Your committee have attended to these duties, and now report: —

On inspecting the bridge it was found that the original structure, built in 1857, was a pine trestle-work resting on piles. It had been repaired in 1870 and 1874, by encasing each of the old timbers with spruce plank on two sides. The original timber is quite rotten and unreliable inside, though sometimes presenting a fair appearance outside. The casing of spruce plank is too thin to give adequate support to the loads to which it is subjected, while the piles, on which the whole structure rests, are in some cases entirely decayed near the top.

It was therefore decided that the bridge could not be judiciously repaired, and that it is unwise to spend any more money in repairing it. The plans prepared by the Boston engineers was then examined, with the estimates accompanying them. These plans consist of two alternative designs. Both show a timber floor 50 feet wide, resting on wrought iron girders; one plan for 4 spans resting on 3 piers and 2 abutments, and one plan for 5 spans on 4 piers and 2 abutments of granite. The piers were to be of iron columns resting on stone bases with pile foundations. The estimated cost was $55,352 for 4 spans, and $63,902 for 5 spans. By inspection of the printed reports of the town, it appears that the original bridge was erected in 1857, at a —

Total cost to the town of		$3,621 94
Sundry repairs have been made from time to time, costing the town in all the further sum of		4,065 30
Making an average outlay of	$200 00	per year.
Besides depreciation amounting to . . .	180 00	"
And interest on first cost at 6 per cent . . .	217 00	"
In all	$597 00	

It is estimated that a new structure of the same general design as the old one could now be built of a similar width, 37 feet, but of about double the strength, to provide for the increased demands of the travel, at a total cost of $8000.00, for which the town would be liable to pay $4000.00.

The appearance to all persons passing over the bridge would be the same, whether the substructure were of iron or wood; the floor in either case, and the cost of repairing it in either case being the same.

If it be supposed that the iron work and its foundations would be nearly permanent and demand but slight repairs, the account for the next 20 years would stand nearly as follows: —

1st. For iron bridge of 4 spans, the first cost of the town's share would be	$27,676 00
20 years' interest on the same at 5 per cent . . .	27,676 00
Cost of repairs of floor and painting iron . . .	3,500 00
Total	$58,852 00
Less value 20 years hence	25,000 00
Amount expended and used up . . .	$33,852 00
Being an annual outlay of	$1,692 00
2d. For wooden bridge 37 feet wide, the first to cost the town would be, say	$4,000 00
20 years' interest at 5 per cent	4,000 00
Cost of repairs of floor and bridge	3,800 00
Total	$11,800 00
Less value 20 years hence	800 00
Amount expended and used up	$11,000 00
Being an annual outlay of	$550 00

This wooden structure would be equally efficient with the iron one except as to width. This extra width could be provided at any time at a like cost, proportioned to the amount of such increase, *i.e.*, an extra width of one third to make the whole 50 feet instead of 37, would involve an extra cost of one third of the above estimate, besides the cost of widening the approach.

Your committee do not find any present necessity for such increase of width, and think the public travel is amply provided for at present with the roadway of 30 feet and one sidewalk.

The Brookline abutment was never, when new, a stable piece of work. It yielded considerably during the first year, and has continued to yield slightly since to the pressure behind it. But it is not in a condition to give occasion for any *immediate* anxiety, and possibly may endure for another twenty years without repairs. Its faults are radical and do not admit of repairs in any case.

In view of the above facts, your committee recommend the passage of the following vote; viz., —

Voted, That the Selectmen be authorized to build, in connection with the city of Boston, a new bridge over Muddy river for Longwood avenue, of wood, and according to such plan as may be agreed upon by them and the city government, and that the sum of four thousand dollars is hereby appropriated for the purpose of paying the town's share of its cost.

Brookline, Apr. 7, 1887.

EDWARD S. PHILBRICK.
EDWARD ATKINSON.
H. M. WHITNEY.
CHARLES U. COTTING.
JAMES P. FARLEY, Jr.

Voted, That the report be accepted.

Voted, That the Selectmen be authorized to build, in connection with the city of Boston, a new bridge over Muddy river for Longwood avenue, of wood, and according to such plan as may be agreed upon by them and the city government, and that the sum of four thousand dollars is hereby appropriated for the purpose of paying the town's share of its cost.

On motion of Hon. William Aspinwall, it was —

Voted, That the report be printed for the use of the inhabitants.

On motion of Mr. Oliver Whyte, it was —

Voted, That there be appropriated for the extension of the water pipes in the several streets and places below named, the following sums; to wit, —

In White place, on petition of J. M. Seamans, seventy (70) feet two-inch pipe, forty dollars	$40 00
In Fay place, on petition of N. Watson, one hundred and forty (140) feet two-inch pipe, ninety dollars	90 00

Voted, That the request of Mr. Beecher be referred to the adjourned meeting.

Voted, That the sum of five thousand dollars be added to the two thousand dollars already appropriated for the further equipment and support of the Fire Department, to be expended under the control and supervision of the Selectmen, substantially in accordance with the report of the committee, subject, however, to such modifications or changes in the plan proposed as the Selectmen may from time to time find to be consistent with safety and economy.

The meeting then voted the following appropriations; viz.,

For watering streets	$6,000 00
town officers	11,350 00

The committee to whom was referred the petition of Mr. A. W. Goddard, in relation to the taxing of certain property now held by said Goddard, reported that they considered the tax levied upon the land excessive, but could not see Mr. Goddard had any legal remedy.

Voted, That the subject of the petition of Mr. A. W. Goddard, in relation to the taxing of land now owned by said Goddard, be referred back to the committee, with instructions to report in print at the adjourned town meeting in relation to the matter; and, if any injustice has been done Mr. Goddard, if there is any legal redress can be had therefor.

Mr. Alfred D. Chandler resigned his place on the committee.

Voted, That Mr. Charles H. Drew be added to the committee in place of Mr. Chandler, resigned.

Voted, That the Assessors be added to the committee.

The subject of placing additional lamps on Newton street was taken up and considered.

Mr. Charles H. Drew called the attention of the town to certain votes passed at the last town meeting, and moved that they be reconsidered; to wit, —

Voted, That there be appropriated the sum of twenty-five hundred dollars for the salary of the Treasurer and Collector, including clerical assistance. That the Treasurer is hereby instructed to keep, in the form and manner that the Auditors may direct, a cash book, journal, and ledger (and other minor books that they may deem necessary), and that any failure or neglect to comply with their instructions, be reported by the Auditors to the Selectmen, who shall thereupon, if just cause appears, appoint a bookkeeper or clerk to the Treasurer, who shall receive out of the salary ($2500) appropriated above, such compensation as the Selectmen shall allow; and that all officers, boards, committees, or others intrusted with the disbursement of money, or authorized to incur bills on account of the town, be seasonably notified by the Treasurer of the balances of the accounts against which they are authorized to draw, to the end that no debt shall be contracted in excess of funds appropriated.

Voted, That the foregoing vote be and hereby is reconsidered.

Voted, That the Selectmen be authorized to contract for all the printing of the town, and that all reports or other matters authorized to be printed, be submitted to them before they are printed, in order to secure uniformity and economy; that ten copies of all reports be carefully preserved, and at the end of the year be bound up, and two copies be placed in the public library, two in the Selectmen's office, two in the Town Clerk's office, and one each in the office of the Treasurer, Assessors, School Committee, and Water Board, there to remain for future use and reference.

Voted, That all sums of money paid for labor by the Treasurer shall be signed for on the pay-rolls by the person to whom said labor is due, or by the person presenting an order written in ink from such employee; and if

signed by his (X) mark, the name shall be written out in full at the time of so writing, and properly witnessed.

Voted, That the foregoing votes be and hereby are reconsidered.

Voted, That the whole subject matter of the foregoing votes, which have been reconsidered, be referred to the Committee on By-Laws.

Tenth Article taken up:

Voted, That the matter be referred to the Selectmen, with instructions to select one or more lots of land suitable for a schoolhouse, on Walnut street or vicinity, and ascertain the prices at which they can be obtained, and report the same to the town at the adjourned, or some future meeting.

Voted, That the Treasurer be authorized to borrow the sum of seventy-five thousand dollars in anticipation of taxes, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen.

Voted, That the various appropriations made by the town, including those for making and repairing highways and town ways, less the amount in the treasury and the estimated receipts for the current year, amounting to

dollars, be assessed upon the polls and estates, real and personal, of the inhabitants, resident and non-resident of the town, and collected as the town rates are usually charged and collected.

Voted, To adjourn, to meet in this place on Monday, the thirtieth instant, at seven of the clock in the evening.

Adjourned.

Attest: B. F. BAKER,
Town Clerk.

ADJOURNED ANNUAL MEETING, APRIL 30, 1877.

Pursuant to adjournment, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town, on Monday, the thirtieth day of April in the year of our Lord one thousand eight hundred and seventy-seven, and were called to order at seven of the clock in the evening by the Moderator, William I. Bowditch.

The Moderator called the attention of the meeting to the proceedings of the meeting held by the citizens of the town on the sixth day of February, 1877, to endorse the action of Congress in appointing a commission to count the electoral vote, presented the records of said meeting, and moved that they be spread upon the records of the town.

Voted, That the proceedings of the citizens' meeting held on the sixth day of February, 1877, endorsing the action of Congress in appointing a commission to count the electoral vote, be spread upon the records of the town.

Mr. William I. Bowditch, chairman of the Selectmen, to whom was referred the matter of selecting one or more lots of land suitable for a schoolhouse on Walnut street or vicinity, and ascertain the prices at which they can be obtained, and report to the town at the adjourned, or some future meeting, reported that they had attended to the duty assigned them, and presented the following statements in relation to the several lots which had been offered for that purpose; to wit, —

First. A lot of land on High street, running through to —— streets, and having a right of passage on and over said streets; said lot being a part of the John S. Wright estate, and containing twenty thousand square feet, at about fifty cents per foot.

Second. A lot of land on Walnut street belonging to Miss Mary Irving, containing about five thousand five hundred square feet, with a dwelling house thereon, for the sum of six thousand and five hundred dollars.

Third. A lot of land on Walnut street was offered by Mr. Lewis Perrin, containing about twenty thousand four hundred square feet, for forty-five cents per foot.

Fourth. A lot of land on Cypress street belonging to Mr. C. E. Hale, containing about sixty-five thousand square feet, with a large two-story stone house on the same, at fifteen thousand dollars for the estate.

Fifth. A lot of land on Walnut street, High street, and Village lane, belonging to Mr. Charles A. Morss, and containing eleven thousand eight hundred and fifty square feet, for sixty cents per foot.

The Selectmen recommended the lot offered by Mr. Morss as being the most suitable place for a schoolhouse, in their opinion, of any of the lots offered.

Voted, That the report be accepted and the committee discharged.

After considerable discussion in relation to the subject of purchasing land and building a schoolhouse in the vicinity designated, it was, on motion of Hon. William Aspinwall, —

Voted, That the whole subject of the necessity of greater school accommodations, and the proposed site of a schoolhouse, be referred to a committee of five, of which the chairmen of the Selectmen and the chairman of the School Committee shall be members, and the three others shall be neither School Committeemen nor Selectmen, with instructions to give a public hearing upon the subject, and to report fully in print at or before the next town meeting.

Voted, That the three other members of the committee be appointed by the Moderator.

The Moderator appointed the following gentlemen as the three other members of said committee; to wit, William Aspinwall, John D. Runkle, Thomas Parsons.

The committee on the necessity of greater school accommodations and the site for a new schoolhouse, are as follows; to wit, William I. Bowditch, chairman of the Selectmen; William H. Lincoln, chairman of the School Committee; William Aspinwall, John D. Runkle, Thomas Parsons.

The committee to whom was referred the petition of Mr. A. W. Goddard, for an abatement of taxes on his real estate, reported, —

That after a careful inquiry into the subject, they found that the land on which an abatement is asked for, was sold by Mr. Goddard, on which he received a portion of the purchase money and took a mortgage back to secure the balance. The mortgagor failing to comply with the terms of the mortgage, Mr. Goddard was obliged to take possession of said estate, on which the taxes had not been paid by the mortgagor. That Mr. Goddard made no seasonable application for an abatement of said taxes, and that no method appears to the committee in which the town itself can reduce the valuation or refund from the treasury the money

which has been paid for taxes on said estate. Nor do the committee find any error in law or in fact in the action of the Assessors; nor do they find now open in law any mode of relief from any hardship arising in the case from subsequent causes.

Voted, That the report be accepted and the committee discharged.

The committee to whom was referred so much of the Auditors' report as relates to the trust funds of the town, presented their report on that subject, which had been printed and distributed among the inhabitants.

Voted, That the report be accepted and the committee discharged.

The meeting then passed the following votes in relation to the matter of trust funds; viz., —

Voted, That all trust funds of the town shall be invested in such securities as savings banks are by law allowed to invest in.

Voted, That the Warren Tree Fund shall be held by the Treasurer, the income from the same to be expended by the Selectmen, agreeably to terms of bequest.

Mr. Thomas Parsons made the following motion; to wit, —

That the Treasurer be authorized to issue the note of the town, signed by the Treasurer and countersigned by the Selectmen, for the sum of $2280.65, at five per cent. interest, payable annually; said note to be held in the town treasury as security for the Edward Devotion School Fund, the interest to be raised annually by taxation, and to be appropriated towards defraying expenses of schools.

On motion of Rev. L. F. Beecher, it was —

Voted, That the subject of the Edward Devotion School Fund be referred to the committee on the new schoolhouse.

Mr. George Griggs offered the following motion; to wit, —

That the amount of the Edward Devotion School Fund, $2280.65, be raised by taxation the present year.

Voted, That the subject be referred to the committee on the new schoolhouse.

The following motion, offered by the committee, was then taken up; viz., —

That the income only of the funds held by the treasurer of the library trustees, shall be expended in the purchase of books and other articles for the benefit of the library, unless otherwise provided in the terms of the gift.

Voted, That the foregoing motion be laid on the table.

The report of the committee on so much of the Auditors' report as relates to the Fire Department, which had been printed and distributed among the inhabitants, was then presented for the action of the meeting.

Voted, That the report be accepted.

The meeting then passed the following votes; to wit, —

Voted, That the service of hose companies, and of hose attached to fire hydrants, be considered the main element of the fire service.

Voted, That the steam fire-engine be put out of commission, but maintained in good order for service in an emergency.

Voted, That the engineer and driver be discharged from the special service for which they are now engaged, and that no special horses be kept for the special service of the steam fire-engine; it being assumed that such arrangements can be made as will assure some of the horses belonging to the town being available to draw the engine to a fire when needed to sustain the hose companies; such service as a reserve not calling for the very rapid work, either of men or horses, that is now assumed to be necessary.

Voted, That the Selectmen appoint one chief superintendent, who shall be qualified to operate the steam fire-engine, if it is needed, who shall give a large part or the whole of his time to attending to the hydrants, hose, telegraph, and other apparatus, and be responsible for all being kept in order; such superintendent to be paid a reasonable compensation, to be fixed by the Selectmen.

Voted, That the Selectmen be authorized to appoint two or four assistant superintendents, and such hosemen, firemen, and hook-and-ladder men as in their judgment may be necessary, and fix their compensation at such rates as they may think warranted by the appropriation, keeping in view the need of having two or more men trained in the working of the

steam engine in an emergency, and selected with regard to their usual occupation, so as to be within easy call if that engine is needed.

Voted, That the committee be instructed to give such further consideration to the subject as in their judgment may be called for, and to submit to the town at a future meeting such further rules and regulations as may be required.

Voted, That the Selectmen be authorized to place a hose carriage at Longwood, if there is enough left of the appropriation for the Fire Department for that purpose.

The Committee on By-Laws requested further time, which was granted.

Voted, That the sum of three hundred dollars be appropriated for the purpose of trenching and grading the burial lot of Post 143, G.A.R., in Walnut Hills Cemetery.

Voted, That the Treasurer be authorized to borrow the sum of seventy-five thousand dollars, in anticipation of taxes, giving the note or notes of the town therefor, signed by the Treasurer, and countersigned by a majority at least of the Selectmen.

Voted, That the various appropriations made by the town, including those for making and repairing highways and town ways, less the amount in the treasury and the estimated receipts for the current year, amounting to dollars, be assessed upon the polls and estates, real and personal, of the inhabitants, resident and non-resident, of the town, and collected as the town rates are usually charged and collected.

Voted, That the thanks of the town be given the Moderator for the excellent manner in which he has presided over the meeting.

Dissolved.

CITIZENS' MEETING, FEBRUARY 6, 1877.

PUBLIC MEETING OF THE CITIZENS OF BROOKLINE, MASS., IN RELATION TO THE APPOINTMENT BY CONGRESS OF THE COMMISSION TO COUNT THE ELECTORAL VOTE.

At the adjourned annual meeting of the inhabitants of the town of Brookline, held on Monday, the thirtieth day of April, 1877, it was —

Voted, That the proceedings of the citizens' meeting, held on the sixth day of February, 1877, endorsing the action of Congress in appointing a commission to count the electoral vote, be spread upon the records of the town. (See page 402).

The proceedings of said meeting were as follows; to wit, —

"CALL.

"The undersigned, citizens of Brookline, believing that the passage of the bill for counting the electoral votes a signal proof of wisdom and fairness on the part of patriotic men of both parties in Congress, and that the patience with which the people of this country have endured these months of anxious suspense is a triumphant vindication of their capacity for self government, hereby invite all citizens of the town, without regard to their political preferences, to unite in celebrating this glorious result of national wisdom, a fitting inauguration of the second century of our independence; and for that purpose to assemble in the upper Town Hall, at half-past seven o'clock on Tuesday evening, February 6, 1877."

In pursuance of the foregoing call, the citizens of the town of Brookline met at the Town Hall in said town, on Tuesday, the sixth day of February, 1877, and were called to order at eight of the clock in the evening by M. P. Kennard, Esq., who read the call for the meeting, and after a few well chosen remarks in relation thereto, announced the following gentlemen as officers for the meeting; viz., —

President, William I. Bowditch; Vice Presidents, William A. Wellman, William Aspinwall, John W. Candler, James

S. Amory, Edward C. Cabot, B. Schlesinger, Daniel D. Brodhead, Maurice Goddard, Jerome Jones, Charles H. Drew, Henry M. Whitney, Augustus Whittemore, William D. Coolidge, James W. Edgerly, Augustus Lowell, John Townsend, Alpheus H. Hardy, Josiah Gooding, Charles U. Cotting, Horace N. Fisher, Thomas H. Talbot, Benjamin Hurd, Amos A. Lawrence, James S. Whitney, John C. Abbott, Theodore Lyman, Charles H. Stearns, Edward E. Floyd, Benjamin B. Davis, James Edmund, John H. Sturgis, M. P. Kennard, George F. Fabyan, Isaac Taylor, William J. Griggs, Joseph F. Greene, John J. Henry, Ignatius Sargent, Charles E. Hapgood, Seth Ames, William H. Hill, Jr.; Secretaries, B. F. Baker, Justin Jones.

The president, on taking the chair, expressed his thanks for the honor conferred upon him, and congratulated the citizens assembled upon the prospect of a peaceful and harmonious solution of the difficulties which had surrounded the recent election.

Col. Horace N. Fisher then presented the following resolutions, and moved their acceptance; to wit, —

"Whereas, it is apparent that the framers of the Constitution did not provide a specific remedy for complications growing out of a disputed election of presidential electors, but left it to the wisdom and experience of succeeding generations to devise a suitable remedy when a need therefor should arise; and —

"Whereas, certain general powers were delegated by the Constitution to Congress, namely, to make all laws which shall be necessary and proper for carrying into execution the foregoing powers and all other powers vested by this Constitution in the government of the United States, or in any department or officer thereof;

"Be it Resolved, as the conviction of the inhabitants of Brookline, in this public meeting assembled, without regard to their political preferences, that the plan adopted by Congress for counting the electoral vote is within the general powers thus delegated to that body, that its adoption by a two thirds vote of both houses is a signal proof of fairness and

wisdom on the part of their members; we therefore rejoice that Congress has thus risen above party issues with a patriotic spirit worthy of the emergency, and we hope that the result of this arbitration should be accepted as final, whatever that result may be.

"Resolved, that, recognizing the fact that an honest difference of opinion does exist as to the constitutionality of this plan, we are convinced that as soon as may be after the inauguration of our next President, it would be eminently wise and proper for Congress to seriously consider this question as one which threatens the permanent prosperity and peace of the country, and to amend the Constitution so as to prevent the recurrence of a dangerous complication like the present.

"Resolved, that the president of this meeting be requested to transmit duly certified copies of these resolutions to the Representative of this Congressional District and to each of the Massachusetts Senators in Congress, and also to present these resolutions to the next town meeting, to the end that they may be entered upon the town records as the voice of the town."

The following gentlemen then addressed the meeting in support of the resolutions; to wit, Hon. William Aspinwall, Col. Theodore Lyman, Gen. James S. Whitney, John W. Candler, Esq., Henry M. Whitney, Esq., and Col. Thomas H. Talbot.

The resolutions were then put upon their passage, and adopted by an unanimous vote.

WILLIAM I. BOWDITCH,
President.

First Article taken up:

To choose a Moderator.

The meeting nominated and chose for Moderator, Thomas H. Talbot, and he took the chair.

Second Article taken up:

To see if the town will accept and allow three town ways, as laid out by the Selectmen under the provisions of law authorizing the assessment of betterments: one called Brook street, leading from Aspinwall avenue to the location of the Boston & Albany Railroad, following the general course of Aspinwall brook; and two leading from Brook street to Aspinwall avenue, one of which will form the extension of Perry street, and the other will be about 150 feet west of said location; the purpose being to build a seven-feet sewer under Brook street, and to make an

appropriation to pay the damages awarded the owners of the land taken to make said street.

The Selectmen presented the following report; to wit, —

Location of Brook street, the extension of Perry street and the short street west of the railroad.

The undersigned, Selectmen of the town of Brookline, having given printed and written notices to William Aspinwall, Right Rev. John J. Williams, Benjamin Hurd, Archibald E. McDonald, Solomon Burt and wife, Charles H. Union or his grantee, Joseph Lovett, George E. Stedman, William Aspinwall (who is believed to have become the purchaser of the estate of the Emigrant Savings Bank), Daniel Doane, and Thomas Howe (being all the parties known to us or believed by us to be interested in the subject matter of the streets laid out), that we intended to lay out, under the provisions of law authorizing the assessment of betterments, —

First. A street called by us Brook street, leading from Aspinwall avenue to the location of the Boston & Albany Railroad, following the general course of Aspinwall brook (under which street it is proposed to build an extension of the main sewer).

Second. A street to form the extension of Perry street, to lead from Aspinwall avenue to Brook street; and

Third. A short street about 150 feet northwest of the location of said railroad, to lead from Aspinwall avenue to Brook street; and for these purposes to take lands and to divert water from the brook coming within the lines of the locations of the contemplated streets, such notices requiring such persons and corporation to appear before us at our room in the Town Hall, on the 10th day of July A.D. 1878, at 8 o'clock A.M., and having caused such notices to be actually served according to law, upon all such persons and said corporation, by a constable of this town, at least seven days before the day so appointed for the hearing; and having also given notice to them, and all other persons and corporations (if any) who may be interested in the subject matter of said streets, or either of them, or said sewer, whose names are not known to us, or who have no place of abode in town, or who have no tenant or authorized agent therein known to us, by posting up the same written and printed notices in three public places in the town, at least seven days before said time appointed for the hearing; pursuant to such notices we met at the time and place appointed, and, after hearing the parties and their remarks and objections, and the routes of the streets hereinafter described having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience and the public health of the inhabitants of this town, that, —

First. A street, called by us Brook street, should be laid out and maintained by the town, leading from Aspinwall avenue to the railroad location, as hereinafter described, viz., the axis line of this street begins at a point on the prolongation of that part of the centre line of Aspinwall avenue next Harvard street, and distant from the stone bound marking said centre line 20 feet.

Thence running in a direction S. 43° 21′ 35″ E., being at right angles to said centre line, prolonged about . .	184.00 feet
Thence turning to the left and running in a direction S. 84° 25′ 40″ E., about	515.46 "
Thence turning to the right and running on a curve of 500 feet radius, about	402.54 "
Thence running in a direction S. 49° 27′ E., being parallel to the southern boundary of the estate of William Aspinwall, and about 5.26 feet distant therefrom, to the location of the Brookline Branch Railroad, about .	712.23 "
	1,814.23 feet

The street above described by the centre line has a width of 20 feet on each side of said centre line, and the corner on land of William Aspinwall near land of Benjamin Hurd being rounded with a curve of 40 feet radius, and taking land for the construction of said road as hereinafter described.

From the estate of William Aspinwall, a parcel of land bounded easterly by the private way running from Aspinwall avenue to Linden place, northerly and northeasterly by land of said Aspinwall by a line 20 feet from the axis line, northwesterly by Aspinwall avenue, southwesterly by lands of William Aspinwall and land of Rt. Rev. John J. Williams, southerly by lands of Benjamin Hurd, Archibald E. McDonald, Mrs. Solomon Burt, and Charles H. Union, or his grantee, Joseph Lovett, about	12,334 sq. ft.
From the estate of the Rt. Rev. John J. Williams, or St. Mary's Catholic church, a parcel bounded northwesterly by land of William Aspinwall, easterly by land of Benjamin Hurd, southwesterly by a line 20 feet from the axis line, about	133 sq. ft.
From the estate of Benjamin Hurd, a parcel of land bounded northerly by land of William Aspinwall, and southerly by a line 20 feet from the axis line, about . .	5,304 sq. ft
From the estate of Archibald E. McDonald, a parcel of land bounded northerly by land of William Aspinwall, westerly by land of Benjamin Hurd, easterly by land of Mrs. Solomon Burt, southerly by a line 20 feet from the axis line, about	1,218 sq. ft.
From the estate of Mrs. Solomon Burt, a parcel of land bounded northerly by land of William Aspinwall, westerly by land of A. E. McDonald, southerly by a line 20 feet from the axis line, easterly by land of Charles H. Union, or his grantee, Joseph Lovett, about . .	380 sq. ft.
From the estate of Charles H. Union, or his grantee, Joseph Lovett, a parcel of land bounded northerly by land of William Aspinwall, westerly by land of Mrs. Solomon Burt, southerly by a line 20 feet from the axis line, and easterly by a private way leading from Aspinwall avenue to Linden place, about	1,517 sq. ft.

The lands thus taken from McDonald, Burt, and Lovett

now form parts of a private way laid out by said McDonald.

From that part of a private way leading from Aspinwall avenue to Linden place, north of the southern boundary of the estate of William Aspinwall, said way at this place being owned in fee by William Aspinwall, about 440 sq. ft.

From that part of the private way south of said boundary line owned in fee by persons unknown to us, about . 440 sq. ft.

From the estate of William Aspinwall, a parcel of land bounded southerly by land late of the Emigrant Savings Bank, and now of said Aspinwall, northwesterly by a private way, aud northerly by a line 20 feet from the axis line about . . . . . 2,164 sq. ft.

From the estate late of the Emigrant Savings Bank, and now of said Aspinwall, a parcel of land bounded northerly partly by a line 20 feet from the axis line, partly by land of William Aspinwall, westerly by private way, and southerly by a line 20 feet from the axis line, about 3,230 sq. ft.

From the estate late of the Emigrant Savings Bank, and now of said Aspinwall, a strip of land, bounded on each side of said axis line by a line 20 feet from said axis line, about . . . . . 11,302 sq. ft.

From the estate late of the Emigrant Savings Bank, and now of said Aspinwall, a parcel of land bounded northerly by land of William Aspinwall, and southerly by a line 20 feet from the axis line, about . . . . 4,806 sq. ft.

From the estate of William Aspinwall, a strip of land bounded northerly by a line 20 feet from the axis line, and southerly by land late of the Emigrant Savings Bank, and now of said Aspinwall, about . . 1,235 sq. ft.

From the estate late of the Emigrant Savings Bank, and now of said Aspinwall, a parcel of land bounded northerly by land of William Aspinwall, southerly by a line 20 feet from the axis line, about . . . . . 4,276 sq. ft.

From the estate of Daniel Doane, a strip of land bounded northerly by land of William Aspinwall, and southerly by a line 20 feet from the axis line, about . . . 8,705 sq. ft.

From the estate of William Aspinwall, a strip of land bounded southerly by lands of Daniel Doane and Thomas Howe, northerly by a line 20 feet from the axis line, about . . . . . 10,498 sq. ft.

From the estate of Thomas Howe, a strip of land bounded northerly by land of William Aspinwall, and southerly by a line 20 feet from the axis line, about . . . 5,001 sq. ft.

Under this street, called by us Brooks street, it is proposed to build an extension of the main sewer of a size sufficient to take the whole flow of the water in Aspinwall brook and the springs which may be found within the lines of the location.

Second. A street should be laid out and maintained by the town, lead-

ing from Aspinwall avenue to Brook street, above laid out, which street will form the extension of Perry street, as hereinafter described; viz., the centre line of this street begins at a point on the southern line of Aspinwall avenue, distant in a southwesterly direction 77.43 feet from the stone bound on the north side of said avenue, near Perry street.

Thence running S. 18° 11′ 30″ W., to the north side line of said Brook street, above laid out, about . . .	239.95 feet
Said extension having a uniform width of 20 feet on each side of the above-described centre line; and —	
Said extension takes land —	
From the estate of William Aspinwall, about . . .	4,767 sq. ft.
From the private way, owned in fee by said William Aspinwall, about	4,827 "

Third, a short street should be laid out and maintained by the town, leading from Aspinwall avenue to Brook street, above laid out by us, which short street will be northwest from and about parallel to the location of the Brookline Branch Railroad, as hereafter described; viz., the centre line of this street begins at a point in the centre line of Aspinwall avenue, and distant 150 feet in a westerly direction from the location of the Brookline Branch Railroad;

Thence running a distance of about 268.2 feet to the north side of Brook street, above laid out by us. The street thus laid out being everywhere 40 feet in width, and taking from land owned by William Aspinwall, about	9,847 sq. ft.

The location of all three of said streets is in accordance with a plan and profile of the same, dated June, 1878, made by Aspinwall & Lincoln, civil engineers, approved by us, and such plan and profile are adopted by us as part of this record.

The Selectmen also take the right to support each and all of said streets by sloping the banks on each side thereof on the adjoining land owned by said parties respectively, and for a short distance on land owned by George E. Stedman; but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purpose or use whatsoever incident to the ownership of the fee in said slopes, that will not impair the security of the road-beds.

We have estimated the damage sustained by the owners of land, rights, and interests, including water rights, caused by the laying out and construction of these three streets in manner aforesaid, whether by taking property, diverting water, or by injuring property in any manner whatsoever; and also estimate and determine the amounts to be paid to said parties, respectively, as follows: —

The Right Rev. John J. Williams, Benjamin Hurd, Archibald E. McDonald, and George E. Stedman have waived all claims to damages.

We take from owners unknown to us about 440 square feet, and we award to such owners the sum of $5.

We take from Mrs. Solomon Burt 380 square feet of land in front of her barn, which land forms part of the private way laid out by McDonald,

and we also take the right to support the road-bed as aforesaid. It will be necessary to raise the barn about 6 feet in order to bring it on the level of Brook street, and we award her as damages for the land and rights thus taken the sum of $200.

We take from Joseph Lovett, as the grantee of Charles H. Union, 1,517 square feet of land, which forms part of the private way laid out by McDonald, and also the right to support the road-bed as aforesaid, and we award him as damages for the land and rights thus taken the sum of $75.

We take from Daniel Doane 8,705 square feet of land, and also the right to support the road-bed as aforesaid; and we award him as damages for the land and rights thus taken the sum of $870.

We take from Thomas Howe 5,001 square feet of land, and also the right to support the road-bed as aforesaid; and we award him as damages for the land and rights thus taken the sum of $750.

We take from William Aspinwall eight parcels of land, containing, respectively, —

For Brook street	12,334 sq. ft.
	440 "
	2,164 "
	1,235 "
	10,498 "
For the extension of Perry street	4,767 "
	4,827 "
For the short street 150 feet west of the railroad, . .	9,847 "
We thus take from William Aspinwall a total of . .	46,112 sq. ft.

and also the right to support the road-bed as aforesaid; and we award to him, and he has agreed to receive in full for all claims for damages for the land and rights thus taken, the sum of $2700.

We take from the estate lately owned by the Emigrant Savings Bank, but now owned by William Aspinwall, four parcels of land, containing, respectively, 3,230, 11,302, 4,806, and 4,276 square feet, making a total of 23,614 square feet; and also the right to support the road-bed as aforesaid. And we award to him, as legal purchaser of this estate of the bank, and he has agreed to receive in full for all claim by said bank or himself, for damages for the land and rights thus taken, the sum of $1705.60, being, as we believe, no more than the value of the gravel on the estate late of said bank which will fall within the line of the location of Brook street, reckoning such value at $3.20 a square.

As additional motives for inducing the town to accept these streets, Mr. Aspinwall offers to give the town, without expense, a right to construct and maintain a covered sewer, not exceeding four feet in diameter, from Aspinwall avenue through his land immediately adjoining, and easterly of land of George E. Stedman, to the sewer to be built under Brook street; or, in lieu thereof, to obtain, and without expense to the town, a right to construct and maintain a similar sewer through the land of said Stedman opposite Toxteth street, the choice between these lines to be with Mr. Aspinwall; but no man-holes or catch-basins, or other

openings are to be constructed in said sewer on the private lands of either said Aspinwall or Stedman.

Mr. Aspinwall also offers to accept the awards of $799, made to the heirs or grantees of Thomas Aspinwall, for damages occasioned by the laying out of the main sewer to Charles river, and to withdraw his application to the County Commissioners for a jury to assess his damages, without costs against the town, although he is of opinion that the construction of such sewer has damaged his estate at least $4000.

Mr. Aspinwall also offers to release the town from all claims for injury done to his property by heretofore using Aspinwall brook for drainage or sewerage purposes illegally and to his injury, as he claims the town has done.

Mr. Aspinwall also offers to release the town from all claims for injury done to his land by the illegal use of the dam and tide gate erected some years since across Muddy river at the Brookline avenue bridge, as he claims the town has done.

We do not admit that Mr. Aspinwall has any just claim against the town for the use of Aspinwall brook by private parties for sewerage purposes. Nor do we admit that he has any just claim for damages growing out of the use of the dam and tide gate; but, nevertheless, we think it an advantage to the town to have these claims abandoned.

Mr. Aspinwall proposes to give to the town certain rights, and also 69,726 square feet of land, for the sum of $4405.60. On a portion of this this land is a bank of gravel, worth in the market not less than $1705.60. We should probably have to pay more than that sum to place on the line of the road that amount of gravel. So that the town really gets from Mr. Aspinwall 69,726 square feet of land and certain other rights for $2700. We therefore, on behalf of the town, assume the payment of any betterment hereafter to be assessed on his estates for the laying out of these streets.

We also assume, on behalf of the town, the payment of any betterment hereafter to be assessed on the estates of Archibald E. McDonald and George E. Stedman, but expressly reserve the right to assess the estates of all other parties, according to law.

And we have given the owners of the lands through which said streets are laid out thirty days from the date of the acceptance of this report by the town in which to remove structures, buildings, walls, fences, hedges, or trees standing on said land.

And said streets, as so laid out, located, and described, are hereby reported to the town for acceptance; and when so accepted, allowed, and recorded, are to be known as town ways.

The said plan, profile, and this record have been this day filed by us in the Town Clerk's office.

We can build all three streets for	$9,500 00
The land damages we estimate at	6,305 60
The fencing we estimate at	600 00
The construction of the sewer under Brook street will cost, according to Mr. Shedd's estimate	28,440 00
600 feet 12-inch sewer in Aspinwall avenue will cost . .	1,200 00

Preliminary surveys, plans, and engineering expenses will cost, say	$1,000 00
Making total cost of streets and sewers . . .	$47,045 60

The voters present then proceeded to deposit their votes and the polls were kept open until, on motion, it was —

Voted, That the polls be now closed.

The Moderator and Town Clerk then proceeded to sort and count the votes given in, and the whole number so given in was two hundred and sixty-eight, and were as follows; to wit, —

Yeas, eighty (80).

Mr. Moses Williams, Jr., for the Committee on the Revision of the By-Laws, presented the following by-law; to wit, —

SECT. The Selectmen are authorized from time to time to assign institutions of instruction to which children under sixteen years of age, who, by reason of the neglect, crime, drunkenness, or other vices of parents, or from orphanage, are suffered to be growing up without salutary parental control and education, or in circumstances exposing them to lead idle and dissolute lives, may be committed in conformity with the provisions of Chapter two hundred and eighty-three of the Acts of the year eighteen hundred and sixty-six.

Voted, That the Committee on By-Laws present the foregoing by-law to the Superior Court for approval.

The School Committee, to whom was referred the subject of suitable schoolhouse accommodations in the vicinity of Chestnut and Sewall streets, reported that —

The committee recommended the erection of a good frame building of two stories, finished for two school-rooms, to accommodate about fifty scholars each. From estimates obtained, such a building, with slated roof, thoroughly finished, ready for furniture, including cellar, furnace, and cesspool, can be built for four thousand dollars. Sufficient space of the lot can be graded as desired for one thousand dollars, and the

remainder at slight cost. That there is sufficient furniture on hand for both rooms, and the other expenditures of the building and grading will not, in the opinion of the committee, exceed five thousand dollars.

Voted, That a frame building be erected for a schoolhouse upon the land now owned by the town on Sewall street, next easterly from the premises occupied by the town stable, at a cost not exceeding five thousand dollars, including the preparation of the land.

Voted, That the Board of Selectmen be empowered to carry out the preceding vote, and to make all necessary contracts therefor.

Voted, That the sum of five thousand dollars is hereby appropriated for the erection of a schoolhouse upon the town land on Sewall street and grading the lot therefor; and the Treasurer is hereby authorized, under the direction of the Selectmen, to provide for this appropriation by a temporary loan in anticipation of, and said loan is hereby made payable from, the taxes of the year eighteen hundred and eighty.

Voted, That the Water Board be authorized to take such action as they may deem best to prevent the pollution of the water in Charles river.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To either of the Constables of the Town of Brookline,

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall in said town, on Wednesday, the twenty-first day of January instant, at seven and one half of the clock in the evening, for the following purposes; to wit, —

Brown and others to the Legislature, "that that part of the old town of Boston which was in 1705 set off from it, and incorporated as the town of Brookline, may be, with all its present inhabitants, again united with the city of Boston."

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this fourteenth day of January in the year of our Lord one thousand eight hundred and eighty.

FRANCIS W. LAWRENCE,
HORACE JAMES,
OLIVER WHYTE,
R. G. F. CANDAGE,
Selectmen of the Town of Brookline.

NORFOLK, ss. BROOKLINE, Jan. 17, 1880.

In pursuance of the within warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place and for the purposes within named, by causing a printed copy of the same to be left at their last and usual place of abode, also by posting the same in three or more public places, and published in

the "Brookline Chronicle," a newspaper printed in said Brookline, four days at least before said meeting.

W. Y. Gross,
Constable.

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town, on Wednesday, the twenty-first day of January in the year of our Lord one thousand eight hundred and eighty, and were called to order at half-past seven of the clock in the evening by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served the notice of the same upon the inhabitants.

The First Article taken up:

To choose a Moderator.

The meeting then nominated and chose for Moderator, William I. Bowditch.

Second Article taken up:

To see what action the town will take in regard to the petition of Thomas S. Brown and others to the Legislature, "that that part of the old town of Boston which was in 1705 set off from it and incorporated as the town of Brookline, may be, with all its present inhabitants, again united with the city of Boston."

Mr. T. H. Murray presented the following resolutions and moved their acceptance; to wit, —

Resolved, That we, the citizens of Brookline in town meeting assembled, hereby declare our conviction that the interests of all classes of our people demand the annexation, as speedily as possible, of the town to the great city by whose territory Brookline is well-nigh surrounded; and be it further —

Resolved, That a committee of fifteen be appointed by this meeting and instructed to appear before the present Legislature and advocate and urge the annexation of the town of Brookline to the city of Boston.

Mr. George W. Carnes presented the following preamble and resolutions, and moved their acceptance and adoption as a substitute for the resolutions already offered; to wit, —

Whereas, Certain voters of Brookline have petitioned the Massachusetts Legislature to "reunite" to Boston the territory of Brookline, with all the inhabitants residing within its limits, and,

Whereas, This act of the petitioners is in direct opposition to the wish of the great majority of the inhabitants, it being the preference of the latter to maintain the identity of the town and continue their jurisdiction over its municipal affairs; therefore —

Resolved, That a committee of ten be appointed, consisting of the Board of Selectmen and five citizens, to oppose this movement for annexation by their appearance before the legislative committee, and that the citizens at large be invited to attend these hearings and unite in resisting, by their presence and protests, a measure so evidently at variance with the best interests of the people of Brookline.

After some discussion of the foregoing resolutions, Mr. John W. Candler offered the following amendment to the resolution of Mr. Murray, which was accepted; to wit, —

That a committee of five citizens, Wm. Aspinwall, M. P. Kennard, Henry M. Whitney, Thomas H. Talbot, and Jerome Jones, be appointed to appear before the Legislature to advocate on behalf of the town of Brookline, its annexation to Boston.

After discussing the subject, and several motions in relation to taking the vote, it was, on motion of Moses Williams, Jr., —

Voted, That when the vote is taken it be taken by ballot one week from to-morrow, between the hours of three and nine of the clock in the afternoon, and by using the check list.

The Moderator made the announcement that the vote would be on the subject of the annexation to Boston, those in favor to vote "Yes," and those opposed to vote "No," to which announcement there was no objection.

Voted, That this meeting be adjourned to Thursday, the twenty-ninth instant, at three of the clock in the afternoon.

Adjourned.

Attest: B. F. BAKER,
Town Clerk.

ADJOURNED SPECIAL MEETING, JANUARY 29, 1880.

Pursuant to adjournment, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town, on Thursday, the twenty-ninth day of January in the year of our Lord one thousand eight hundred and eighty, and were called to order at three of the clock in the afternoon by the Moderator, William I. Bowditch.

The Moderator then declared the polls open for the re-

ception of votes on the subject of the annexation of the town of Brookline to the city of Boston, those in favor to vote "Yes," those opposed to vote "No."

Voted, That the Moderator be authorized to appoint a committee of three to assist the Moderator and Clerk in sorting and counting the votes.

The Moderator appointed Albert L. Lincoln, Jr., Emery B. Moore, and Charles B. Farnum.

The polls were then opened for the reception of votes on the subject announced to the meeting, and were kept open until nine of the clock in the evening, when, after due notice, they were declared closed.

The Moderator and Town Clerk then proceeded to help sort and count the votes given in, and the whole number so given in was eight hundred and thirteen, and were as follows; to wit, —

Yeas, two hundred and seventy two (272).
Noes, five hundred and forty-one (541).

In voting, the check list was used, and no one was allowed to deposit his vote until his name was found on the list and checked.

Resolved, That a committee of ten be appointed, consisting of the Board of Selectmen and five citizens, to oppose this movement for annexation by their appearance before the legislative committee, and that the citizens at large be invited to attend these hearings and unite in resisting, by their presence and protests, a measure so evidently at variance with the best interests of the people of Brookline.

Said posts may be located and maintained in the positions where they are now delineated upon a plan made by Alexis H. French, civil engineer, dated March 24, 1880, and deposited in the office of the Town Clerk, which plan is expressly made part of this paper writing.

The posts shall be substantial, securely planted in the ground, and painted of a suitable brown color.

No wire shall be placed at a height of less than 21 feet from the ground, and the locations in which wires may be placed and used shall be only those delineated upon said plan. And we, the said Selectmen, do hereby expressly reserve to the town of Brookline the right to attach to, and place upon, any or all posts or other structures used or erected by said copartners under this paper or otherwise, such wires or other telephonic or telegraphic apparatus as may be, in the judgment of the Selectmen of Brookline, necessary or expedient for any town or public purpose at any time. Such use by said town shall always be made in the manner which will cause said copartners the least possible inconvenience, and this paper shall not be construed to give said town the right to use telephonic apparatus, except upon such terms of payment as may be or may have been agreed upon by the

town with said copartners or other authorized persons or corporations, but the use of the posts and structures (erected and used by said copartners as aforesaid) by said town for telegraphic communication, shall be without cost to said town.

The committee on the subject of Muddy river presented the following report; to wit, —

ANNUAL TOWN MEETING,
BROOKLINE, March 30, 1880.

The committee appointed at the annual town meeting holden March 26, 1878, to negotiate with the city of Boston in reference to constructing a new channel for Muddy river from near Pond avenue to Charles river, so that the same may be kept free from sewage, respectfully submit the following —

REPORT.

After their partial report, submitted to the town at its annual meeting March 25, 1879, your committee endeavored to have an early meeting with the joint special committee of the city of Boston, but did not succed until July. On the second day of that month the Boston and Brookilne committees went over the line of Muddy river from the Brookline-avenue bridge to Pond avenue. Both committees seemed to be of the opinion that a new channel was very desirable for both municipalities, and it was understood that there should be another conference after the summer vacation, to consider the proper line. That conference has not taken place.

The Park Commissioners of Boston, in their last and fifth annual report, speak thus of the diversion of Muddy river :

" Before any important work can be done in developing the Back Bay park, it is imperative that the improvements heretofore contemplated for controlling the waters of Muddy river and Stony brook be completed. The requisite legislation for carrying Muddy river in a direct course into Charles river, west of Brookline avenue, by the joint action of the city of Boston and town of Brookline, exists.

" The sewerage from the lower part of Brookline is now carried into Charles river by a new drain; but, nevertheless, most of the surface wash and swamp water of that unsavory region of the town bordering upon the city is still brought into the Back Bay, adding to the defilement of the water and contamination of the air in the immediate vicinity of the most rapidly growing part of the city."

It would seem, therefore, that the city of Boston must now be anxious to execute this work, the importance of which has impressed the town of Brookline for many years.

Your committee would suggest that the new channel would form a more convenient boundary between Brookline and Boston than the present line, and they therefore recommend that the town apply to the next Legislature for such a change of the existing boundary.

Your committee are of opinion that this matter, being intimately connected with the town system of sewerage, might well be referred to the Selectmen. They, therefore, respectfully suggest that this committee be discharged, and that the authority given them by the vote of March 26, 1878, be conferred upon the Selectmen.

WILLIAM ASPINWALL,
JOHN W. CANDLER,
FRANCIS W. LAWRENCE,
Committee.

Voted, To accept the report and discharge the committee.

Voted, That the subject of the new channel for Muddy river be referred to the Selectmen and Park Commissioners under the vote of March 26, 1878.

The special report of the committee appointed to oppose the annexation of the town to the city of Boston, which had

been printed with the report upon the articles in the warrant and distributed among the inhabitants of the town, was presented by Moses Williams, Jr.

Voted, To accept the report and discharge the committee.

The report of the Committee on the Revision of the By-Laws was presented by Mr. Charles H. Drew.

Voted, To accept the report.

Voted, That the report be laid upon the table.

Voted, That the committee report a by-law in relation to the assignment of habitual truants and children described in the first Section of Chapter 262, Acts of 1875, also the support and care of indigent children.

Voted, That the Treasurer be authorized, under the direction of the Selectmen, to borrow the sum of one hundred and fifty thousand dollars ($150,000) in anticipation of taxes, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen.

C. Emerson, and the private way now known as Thayer place, to the southerly side of Washington street, under which it is proposed to build a sewer, such notices requiring such persons to appear before us at the Town Hall, on the twenty-third day of August, 1880, at four o'clock in the afternoon; and having caused such notices to be actually served, according to law, upon all such persons, by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up a copy of the printed and written notice in a public place in town, at least seven days before the time appointed for the hearing; — pursuant to such notice we met at the time and place appointed for the hearing, and after hearing the parties and their remarks and objections, and the route of the street having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience that a street or town way, called by us Thayer street, should be laid out and maintained by the town, leading from Davis avenue to Washington street, as hereinafter described by its centre line; viz., —

ADJOURNED ANNUAL MEETING, APRIL 4, 1881.

Pursuant to adjournment, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town, on Monday, the fourth day of April in the year of our Lord one thousand eight hundred and eighty-one, and were called to order at half-past seven of the clock in the evening, by the Moderator, Rufus G. F. Candage.

The records of the last meeting were read and approved.

Mr. Charles H. Drew, chairman of the Board of Selectmen, to whom was referred the subject matter of the Twelfth Article in the warrant, in relation to instructing the Selectmen to apply to the County Commissioners of Norfolk County, in connection with the Street Commissioners of the city of Boston, to lay out a road or street from Grove street by the northerly side of Walnut Hills Cemetery to Boston line, to connect with Allandale street or Centre street, reported that the Selectmen had considered and examined the matter, that no doubt such a way would be a great convenience to people desiring to go from that part over to the Allandale springs and that part of Boston, but that they were of the opinion that it was not proper for the town to make the application to the County Commissioners.

On motion of Mr. Edward S. Philbrick, it was —

Voted, That the matter of the Twelfth Article be indefinitely postponed.

Mr. Austin W. Benton, for the committee to whom was referred the Ninth Article in the warrant, in relation to covering the sewer in the rear of the estate of Mr. James Driscoll on Pearl street, presented the following report; viz., —

The committee appointed on the Ninth Article in the warrant have considered the matter assigned them, and present herewith their

REPORT.

We have visited and inspected the premises complained of. The open sewer is six hundred and seventy-one feet in length, from that part of the sewer which is covered to the town sewer recently built, and which crosses this sewer. The petitioners represent that foul odors emanate from this open sewer in the hot weather which make the dwellings near it very disagreeable. To cover it properly and to the acceptance of the Boston & Albany Railroad Company, on whose land it was built, would require an outlay, in the judgment of your committee, of from nine to ten thousand dollars, perhaps more even than the largest sum named. The new project for park improvements on the line of Muddy river, which is alluded to in the annual town reports, if carried out, would be likely to include an improvement in this sewer. It does not seem to your committee desirable for the town to make so costly an outlay on this sewer until the matter of the other contemplated improvements in that vicinity have been developed or decided upon, so that the town may be able to judge of the bearing of those improvements on this locality. If the estates which now drain into this open sewer could be provided with drainage into the new sewer recently constructed by the town, and this be used as a conduit for storm water only, and kept free from pollution, the objection now made would be obviated. This sewer now seems to be a receptacle for refuse substances of all kinds, which impede the free flow of the water and assist in polluting the air when the weather is hot. Your committee would recommend that this sewer be thoroughly cleared, and, so far as can be, be kept cleared from all these foreign substances, and after the town shall have decided what action it will take upon the Muddy-river improvement scheme, the matter of this sewer can be taken up and such measures adopted as will remedy the trouble complained of.

A. W. BENTON,
JOHN GIBBS,
JOHN PANTER,
Committee.

Brookline, April 4, 1881.

Voted, That the report be accepted and the recommendations adopted.

On motion of Mr. Moses Williams, Jr., it was —

Voted, To take up the Fourteenth Article.

Fourteenth Article taken up:

To raise and appropriate such sums as may be necessary for all or any of the purposes mentioned in the foregoing articles, or as may be required to defray the expenses of the town for the ensuing year, and especially to act upon all the appropriations asked for or proposed by the Auditors, or by any town officers or committees.

Mr. Moses Williams, Jr., moved —

That the sum of two thousand five hundred dollars be added to the appropriation for the police.

After a very full and free discussion of the matter, the motion was put to the meeting, and was decided in the negative.

The committee to whom was referred the subject matter of the Fourth Article, in relation to purchasing from the trustees under the will of Augustus Aspinwall, for a gravel pit, a lot of land formerly owned by James H. Thence running south 74° 0′ 0″ east, 486.31 feet to the westerly side of Harvard street, taking a parallel width of 17½ feet on each side of the centre line, and curving the southeasterly corner of Vernon street and Park street with a radius of 9 feet.

The location of said street or way is in accordance with a plan and profile of the same dated May 29, 1882, made by A. H. French, civil en-

gineer, approved by us, and such plan and profile are adopted by us as a part of this record.

And the owners of the land abutting upon said street or way, in consideration of the town laying out the same, agree to waive all claims to land or grade damages.

There being no structures, buildings, trees, walls, fences, or hedges standing upon the land taken for said street or way, the same may be entered upon at once for the purpose of constructing the same; and the estimated cost of making said street or way is four hundred dollars.

And we award as damages to the owner or owners of the fee of the land over which said street is laid out, the sum of one dollar.

And said street or way as so laid out, located, and described, is hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, is to be known as a town way.

Mitchell, heirs of P. Stearns Davis, and William Aspinwall (being all the parties known to us to be interested in the subject matter of the road or town way to be laid out), of our intention to lay out as a town way the new road called by us Gardner road, and running from Washington street to Tappan street, such notices requiring such persons to appear before us at the Town Hall on Monday, the 1st day of May, 1882, at four o'clock in the

Pursuant to such notice, we met at the time and place appointed for the hearing; and all parties and interests which had appeared having been heard in relation thereto, and the route of the road or way having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience that a street or town way, called by us Gardner road, should be laid out and maintained by the town, as hereinafter described.

The location of said road or way is in accordance with a plan and profile of the same dated January, 1882, made by Aspinwall & Lincoln, civil engineers, approved by us, and such plan and profile are adopted by us as a part of this record.

And the owners of the land abutting upon said road or way, and of the fee of the land over which said road or way is laid out, in consideration of the town laying out the same, agree to waive all claims to land or grade damages.

There being no structures, buildings, trees, walls, fences, or hedges standing upon the land taken for said road or way, the same may be entered upon at once.

And said road or way as so laid out, located, and described, is hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, is to be known as a town way.

Second Article taken up:

To see if the town will accept and allow a town way in extension of Toxteth street, as laid out by the Selectmen.

The Selectmen presented the following report on the laying out and location of a town way in extension of Toxteth street; to wit, —

The undersigned, Selectmen of Brookline, having given printed and written notices to the Aspinwall Land Company and William F. Humphrey (being all the parties known to us to be interested in the subject matter of the street or town way to be laid out) of such intention to lay out a town way in extension of Toxteth street over land of the Aspinwall Land Company, in which it is proposed to construct a sewer, such notices requiring such persons to appear before us at the Town Hall on Monday, the twenty-eighth day of May, at four of the clock in the afternoon, and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing; and having given notice to them, and all other persons and corporations (if any) who may be interested in the subject matter of said way, whose names are not known to us, by posting up copies of the printed and written notice in three public places in town, at least seven days before the day appointed for the hearing:

Pursuant to such notice, we met at the time and place appointed for the hearing, and thence by adjournment to Tuesday, May 29, 1883, and thence by adjournment to Monday, June 4, 1883, and all parties and interests which had appeared having been heard in relation thereto, and the route of the proposed street or town way having been viewed by us, after fully considering the subject, do adjudge that it is necessary for the

public convenience that a street or town way should be laid out and maintained by the town as hereinafter described by its centre line; viz., —

Commencing at a point on the prolongation easterly of the tangent marking the centre line of that part of Aspinwall avenue between Perry street and Toxteth street, 23.00 feet distant from the stone monument at the easterly end of said tangent, and running southerly in a direction at right angles with said tangent by a course S. 15° 5′ 0″ W. 228.88 feet to the centre line of Brook street, thence S. 28° 14′ 50″ W. 288.70 feet to the northerly side of Linden place, taking land bounded and described as follows: —

From the Aspinwall Land Company, a parcel of land bounded northerly by Aspinwall avenue, southerly by Brook street, westerly by the easterly line of land of William F. Humphrey, said line being 20 feet from the centre line of the street, and easterly by a line 20 feet from the centre line containing 7270 square feet, more or less.

From the Aspinwall Land Company, another parcel of land bounded northerly by Brook street, southerly by Linden place, westerly by a line 20 feet from the centre line, and easterly by a line 20 feet from the centre line containing 10,760 square feet more or less.

The location of said street or way is in accordance with a plan and profile of the same dated May 29, 1883, made by A. H. French, civil engineer, approved by us, and such plan and profile are adopted by us as a part of this record.

The Selectmen also take the right to support said street or town way, by sloping the banks on each side thereof on the adjoining land owned by said parties, respectively, as shown on said plan, except for a distance of about 80 feet on the line of William F. Humphrey's land, where a retaining wall is to be built by the town at such a point as he may select; but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purposes or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the roadbed.

We have estimated the damage sustained by the owners of land, rights, and interests caused by the laying out and construction of said street in manner aforesaid, whether by taking property, or by injuring property in any manner whatsoever, and do estimate and determine the amounts to be paid to said parties, respectively, as follows; viz., —

We take from the Aspinwall Land Company 18.030 square feet of land and the right to support the roadbed as aforesaid, as shown on said plan, and we award to said Company for the land and rights thus taken, the sum of $845.19.

We award William F. Humphrey, for the sight to support the roadbed, as aforesaid, as shown on said plan, the sum of $194.85.

And we have given the owners of the lands through which the said street is laid out, fifteen days from the date of the acceptance of this report by the town, in which to remove structures, buildings, walls, fences, hedges, or trees standing on said land.

And said street as so laid out, located, and described, is hereby reported

to the town for acceptance, and when so accepted, allowed, and recorded, is to be known as a town way.

The said plan, profile, and this record have this day been filed by us in the Town Clerk's office.

The estimated cost of building this street is	$2,400 00
The land and other damages we estimate at	1,040 04
The estimated cost of building the sewer in said street is .	3,000 00
Total, ...	$6,440 04

APPENDIX A.

Regulations Providing for the Management of the Brookline Water Works.

1. Applications for the use of water must be made in writing at the office of the Water Board, and must state fully and truly the uses to which it is to be applied. Should any taker desire to use the water for any purpose not stated in his application, he must make request to the Water Board for permission to use it for such other purpose. No water shall be supplied by takers to persons not entitled to its use.

2. All persons taking water shall keep in order the service-pipe within their promises, and be liable for all damage resulting from their failure to do so.

3. They shall prevent all voluntary waste of water, and shall not allow water to run through their fixtures to prevent freezing. There shall be no concealment of the purposes for which it is used.

4. No alteration shall be made in any pipes or fixtures inserted by the town, except by persons authorized by the Water Board, who shall be allowed to enter the premises to examine the apparatus, the quantity of water used and manner of its use, and to ascertain whether there is any improper waste; *provided*, however, that no dwelling house shall be thus entered except on presentation of a special order, designating the house and its occupant, signed by the superintendent, authorizing such entry. Said order shall be left with the occupant.

5. The town reserves to itself the right, whenever it deems it necessary to repair the works, to shut off the water in whole or in part, and to stop the supply for other than domestic purposes in cases not requiring a complete stoppage.

6. Owners shall be so far responsible for tenants that new tenants shall not be entitled to a supply until all arrearages on the premises are paid. When water shall be supplied to more than one taker through a single service, the bill for the whole supply furnished through such service will be made either to the owner of the estate or to some one tenant who shall agree to be responsible therefor. In case of non-payment the water may be shut off, notwithstanding one or more takers may have paid their proportion to such owner or tenant.

An Ordinance to Establish the Brookline Water Board.

Sect. 1. At the annual meeting in 1877, there shall be chosen by ballot three inhabitants of the town of Brookline, who shall be styled the Brookline Water Board, one of whom shall be chosen to hold office until the annual meeting in 1878, one to hold office until the annual meeting in 1879, and one to hold office until the annual meeting in 1880, and at every

annual meeting after 1877 one member of the board shall be chosen to hold office until the annual meeting in the third year after the meeting at which he shall have been chosen. In case of a vacancy by death, resignation, removal from town, or other cause, the vacancy shall be filled at the next town meeting after the occurrence of such vacancy.

SECT. 2. The Water Board shall, at the first meeting after their election in each year, choose from their number a Chairman. Two members shall be a quorum for the exercise of the powers and performance of the duties of the Water Board. The board may appoint and remove at their discretion a Clerk, who shall also be Water Registrar, and such servants or agents as may be necessary, and may prescribe their duties. They may fix the salaries of such Clerk and Registrar, and such servants and agents, subject to the instructions and control of the town. The board shall in no case make any contract or agreement beyond the appropriation for the purpose made by the town.

SECT. 3. The Water Board, thus constituted, shall have the exclusive and entire charge, superintendence, and oversight of all lands, structures, works, and apparatus designed and provided for obtaining and supplying pure water for the uses of the town. They shall receive from the Water Commissioners any and all such works as may have been established. They shall have the exclusive control and management of the uses, repairs, and extensions of such works and structures, whether newly determined upon or otherwise, unless the town shall make other provision in extensions of the works.

SECT. 4. The Water Board shall have control and jurisdiction over all sources of supply possessed by the town, and of all lands appurtenant thereto, and owned or lawfully controlled by the town; and they may exercise all rights as to entry upon and passage over private premises which now are or may become vested in the town, belonging or relating to the management of the water works and supply of water.

SECT. 5. The Water Board shall use diligent care for the protection and security of all sources of water from which a supply is in any part obtained, so that the purity thereof may not be impaired.

SECT. 6. The Water Board shall, as often as once in each calendar month, meet and examine all bills and claims incurred by them in the prosecution of their duty; and all claims approved shall be certified by them and they shall draw warrants upon the Town Treasurer for the payment of the same. The Water Board shall keep a full record of their proceedings, and shall make quarterly reports to the Selectmen of their doings on or before the tenth day of each January, April, July, and October, which reports shall be printed in the same form as the annual reports to the town, and shall be in charge of the Town Clerk for distribution to the inhabitants, and they shall at the annual town meeting make a report in detail to the town of their official acts and doings for the year preceding, with estimates of expenditures for the year succeeding, and such suggestions and recommendations as may seem to them for the benefit of the town.

SECT. 7. The Water Board shall, in consultation with the Engineers of the Fire Department, make all proper arrangements for the sufficient

supply of water for use at fires, and for affording the same in the most efficient and suitable manner. They shall, in consultation with the Selectmen, arrange for such supply of water as may be required for operating any public fountains and ornamental public water works, for flushing and cleansing public sewers and drains, for sprinkling streets, and for any other use clearly distinct from that of ordinary water takers.

SECT. 8. The Water Board shall have exclusive charge of the supply of water, may make all necessary arrangements therefor, and such regulations as may be judicious, not inconsistent with those established by the town.

SECT. 9. Bills for the use of water shall be payable at such times, and collected in such manner, as the Water Board may determine. All sums received by the Water Board for the use of water, or for the sale of any other matter or thing lawfully held by them, shall be paid weekly into the town treasury, and a receipt taken for the same.

SECT. 10. No member of the Water Board, and no person officially acting under their appointment, shall, directly or indirectly, be personally interested in any contract, bargain, or sale of property or material connected with the water supply, wherein either the Water Board or any committee thereof shall be a party. The members of the Water Board shall not receive any compensation for their services, and neither they nor any officer appointed under their authority, shall demand or receive any fee or reward for service to any person in connection with his duty.
